Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers. This guide provides essential safety instructions to ensure the safe and effective use of your reloading machine. Please read this document carefully and keep it for future reference.

General Safety Guidelines

- Always follow the manufacturer's instructions and recommendations.
- Ensure that the workspace is clean, welllit, and organized.
- Keep the reloading machine out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the machine.
- Do not use the machine for any purpose other than reloading ammunition.
- Regularly inspect the machine for any signs of wear or damage.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Before use, ensure that all components are properly installed and secured.
- Do not overload the machine with more than its specified capacity.
- Use only recommended die sets and accessories for your Dillon XL750.
- Avoid wearing loose clothing or jewelry that may get caught in the machine.
- Keep hands and tools clear of moving parts during operation.
- Never leave the machine unattended while it is in use.
- If you experience any unusual noises or malfunctions, stop using the machine immediately and seek assistance.
- Ensure that the area is free from flammable materials when reloading.

Instructions for Installation and Usage

Installation

1. **Choose a Suitable Location:** Select a sturdy workbench or table that can support the weight of the machine and provide sufficient space for operation.
2. **Assemble the Machine:** Follow the manufacturer's assembly instructions carefully. Ensure all parts are securely attached.
3. **Install the Electric Case Feeder (Optional):** If using the electric case feeder, follow the specific installation instructions provided with the accessory.
4. **Set Up the Die Set:** Purchase and install a compatible die set separately. Ensure it is properly aligned and tightened.

Usage

1. **Preparation:** Gather all necessary materials, including brass cases, primers, powder, and bullets.
2. **Check the Machine:** Inspect the machine for any loose parts or obstructions. Ensure the area is clean and organized.
3. **Set the Desired Caliber:** Adjust the machine settings according to the caliber you are reloading (e.g., 25 WSSM).
4. **Reloading Process:**
 - Insert the brass case into the machine.

- Follow the steps for priming, powder dispensing, and bullet seating as per the manufacturer's guidelines.
 - Monitor the operation closely and make adjustments as needed.
5. **Finishing Up:** After reloading, clean the machine and workspace. Store all materials safely and securely.

Disposal Instructions

- Dispose of any unused or expired components (e.g., powder, primers) in accordance with local regulations.
- Do not throw away the machine in regular household waste. Check for local recycling or hazardous waste disposal options.
- Ensure that all materials used in the reloading process are disposed of safely to avoid environmental contamination.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or contact your local distributor for assistance.

Stay informed about product safety and updates through the EU Safety Gate platform. Thank you for prioritizing safety in your reloading activities.
