## Safety Instructions

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for your reloading needs. This machine is designed for efficiency and precision in loading rifle and handgun cartridges. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

### General Safety Guidelines

- Ensure all users read and understand this manual before using the machine.
- Always wear appropriate safety gear, including safety glasses and hearing protection.
- Keep the reloading area clean and organized to prevent accidents.
- Ensure the machine is placed on a stable workbench or surface to avoid tipping.
- Do not operate the machine under the influence of drugs, alcohol, or fatigue.
- Be aware of your surroundings and ensure that children and pets are kept at a safe distance while operating the machine.
- Regularly inspect the machine for any signs of wear or damage. Do not use if any parts are damaged.

### Specific Safety Precautions for Use

- **Electrical Safety:**
  - Ensure that the machine is properly grounded and that the power supply is in good condition.
  - Do not use the machine if the power cord is frayed or damaged.
- **Handling Components:**
  - Always handle reloading components with care. Store powder and primers in a cool, dry place away from direct sunlight and heat sources.
  - Avoid overfilling powder measures as this can lead to dangerous situations.
- **Reloading Process:**
  - Follow the manufacturer's instructions carefully for loading ammunition.
  - Never leave the machine unattended while in operation.
  - Do not attempt to modify the machine or use it for purposes other than intended.
- **Emergency Procedures:**
  - In case of an accident or malfunction, immediately stop using the machine and disconnect it from the power source.
  - Keep a fire extinguisher nearby and familiarize yourself with its use.

### Instructions for Installation and Usage

#### 1. Installation:

- Place the Dillon XL750 on a stable workbench that can support the machine's weight and withstand the forces generated during operation.
- If using an electric case feeder, install it according to the manufacturer's instructions.
- Ensure that all components are securely attached before operating the machine.

## 2. **Setup:**

- Set up the machine according to the specific cartridge you are loading. Refer to the die set instructions for proper setup.
- Check that all necessary tools, components, and safety gear are within reach before starting.

## 3. **Operating the Machine:**

- Load the appropriate caliber die set into the machine.
- Follow the reloading process stepbystep as outlined in the die set instructions.
- Monitor the reloading process closely to ensure everything is functioning correctly.

## 4. **PostUse Care:**

- After reloading, clean the machine according to the manufacturer's recommendations.
- Store all components in a safe and organized manner to prevent accidents.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not throw away hazardous materials in regular trash. Contact local waste management for proper disposal methods.
- Ensure that the machine is unplugged and disassembled before disposal.

## **Contact Information for Further Support**

For any questions regarding the operation, safety, or maintenance of the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's contact information provided in the product packaging or on the official website.

By following these safety instructions, you will help ensure a safe and enjoyable reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and take the time to understand the proper use of this equipment. Happy reloading!
