## Safety Instructions

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions to ensure safe and effective use of your reloading machine. Please read this manual carefully before using the product.

### General Safety Guidelines

- Ensure that the Dillon XL750 is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses and hearing protection, while operating the machine.
- Keep the reloading area clean and organized to prevent accidents.
- Do not allow children or unauthorized individuals to operate the machine.
- Familiarize yourself with the machine's components and their functions before use.
- Inspect the machine regularly for any signs of damage or wear.
- In case of any malfunction, cease operation immediately and consult the manual or a professional.

### Specific Safety Precautions for Use

- **Hazard Identification:**

- Risk of injury from moving parts: Keep hands and loose clothing away from the machine while in operation.
- Risk of explosion: Only use components that are specifically designed for the Dillon XL750 and follow recommended load data.
- Risk of burns: Some components may become hot during operation; handle with care.

- **Avoiding Hazards:**

- Always ensure the machine is turned off and unplugged before performing maintenance or adjustments.
- Use proper reloading techniques to prevent double charging or squib loads.
- Store all reloading components, such as powder and primers, in a safe and secure location away from children and pets.
- Do not consume alcohol or drugs before or while operating the machine.

- **Age Specific Warnings:**

- This machine is intended for use by individuals aged 18 and older. Minors should only use the machine under strict adult supervision.

### Instructions for Installation and Usage

- **Installation:**

1. Choose a stable and level surface for the machine.
2. Secure the Dillon XL750 to the reloading bench using the appropriate mounting hardware (not included).
3. If using the optional electric case feeder, follow the manufacturer's instructions for installation.

- **Usage:**

1. Ensure that the machine is properly set up and all components are securely attached.
2. Adjust the die set according to the caliber you are reloading (sold separately).
3. Load the appropriate components (brass, powder, bullets) into the machine.
4. Follow the reloading process as outlined in the Dillon XL750 manual.
5. Monitor the operation closely and be prepared to stop the machine at any time if you notice any irregularities.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components according to local regulations.
- Recycle packaging materials where possible.
- Do not dispose of hazardous materials, such as primers or powders, in regular waste. Consult local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please contact the manufacturer or your local dealer. Ensure you have the model number and any relevant purchase information ready when seeking support.

By adhering to these safety instructions, you can ensure a safe and enjoyable reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and stay informed about best practices in reloading.
