Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers. This guide provides essential safety instructions to ensure the safe and effective use of your reloading machine. Please read this guide thoroughly before operating the machine.

General Safety Guidelines

- Ensure that all users are familiar with the operating instructions and safety precautions.
- Always wear appropriate safety gear, including safety glasses and hearing protection, while operating the machine.
- Keep the reloading area clean and organized to prevent accidents.
- Store all components and materials safely away from children and pets.
- Regularly inspect the machine for any signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Be aware of the potential hazards associated with reloading, including:
 - Explosive materials: Handle all powders and primers with care to avoid accidental ignition.
 - Sharp objects: Use caution when handling dies and other metal components.
 - Heavy equipment: Ensure proper lifting techniques are used when moving the machine.
- Do not exceed the recommended load capacities for the machine.
- Never leave the machine unattended while in operation.
- Ensure that the machine is properly secured to the workbench to prevent tipping or movement.
- Use only compatible dies and components as specified in the product documentation.
- Do not attempt to modify the machine or use it for purposes other than intended.

Instructions for Installation and Usage

Installation

1. Choose a stable, flat surface for installation.
2. Secure the Dillon XL750 to the workbench using the appropriate mounting hardware.
3. If using the optional electric case feeder, install it according to the manufacturer's instructions.
4. Ensure that all components are securely fastened before proceeding.

Usage

1. **Preparation:**
 - Gather all necessary materials, including brass cases, primers, powder, and bullets.
 - Set up the machine according to the specific caliber you are reloading.
2. **Loading Process:**
 - Follow the die set instructions to install the dies properly.
 - Adjust the machine settings as needed for your specific load.
 - Begin the reloading process by cycling the handle smoothly and consistently.

3. PostOperation:

- After reloading, clean the machine and workspace to remove any debris or leftover materials.
- Store all components in a safe and secure location.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Recycle any metal components where possible.
- Do not dispose of hazardous materials in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please consult the product documentation or contact your local dealer for assistance.
