## Safety Instructions

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers. This guide provides essential safety instructions to ensure the safe use and operation of your reloading machine. By following these guidelines, you can minimize risks and enhance your reloading experience.

### General Safety Guidelines

- Always read and understand the entire manual before operating the machine.
- Ensure the machine is used in a wellventilated area to avoid inhalation of any dust or fumes.
- Keep the reloading area clean and free of clutter to prevent accidents.
- Store all reloading components and tools out of reach of children and pets.
- Use personal protective equipment (PPE), such as safety glasses and gloves, when operating the machine.
- Be aware of your surroundings and ensure that no one is standing close to the machine while in operation.
- Never leave the machine unattended while it is in use.

### Specific Safety Precautions for Use

- **Electrical Safety:**
  - Ensure that the machine is properly grounded.
  - Do not operate the machine with wet hands or in wet conditions.
  - Use only the power supply specified in the product manual.
- **Mechanical Safety:**
  - Keep hands and clothing away from moving parts to prevent entanglement.
  - Regularly inspect the machine for any signs of wear or damage before use.
- **Material Safety:**
  - Use only the recommended components and materials for reloading.
  - Store powders and primers in accordance with safety regulations and manufacturer instructions.
- **Emergency Preparedness:**
  - Keep a fire extinguisher nearby and familiarize yourself with its use.
  - Know the emergency procedures for your location in case of an accident.

### Instructions for Installation and Usage

#### 1. Installation:

- Place the Dillon XL750 on a sturdy, stable workbench.
- Ensure that the machine is securely mounted using the Strong Mount, if applicable.
- Install the electric case feeder according to the manufacturer's instructions, if desired.
- Verify that all components are correctly assembled and secured before usage.

#### 2. Usage:

- Set up your reloading components, ensuring that you have the appropriate dies and tools for the caliber you are working with.
- Follow the reloading process as outlined in the product manual, paying close attention to each step.
- Monitor the operation of the machine continuously during use. If you notice any irregularities, stop

- the machine immediately.
- Maintain a consistent pace while operating the machine to avoid mistakes.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of hazardous materials, such as primers or powders, in regular waste. Follow local hazardous waste disposal guidelines.

## **Contact Information for Further Support**

For any safety inquiries, product support, or to report unsafe products, please refer to the appropriate contact channels provided by the manufacturer. Always ensure you have the latest information regarding recalls or safety updates.

By following these safety instructions, you will contribute to a safer reloading environment and enhance your overall experience with the Dillon XL750 Progressive Reloading Machine. Thank you for prioritizing safety in your reloading activities.
