## Safety Instructions

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading machine. Please read this document carefully before using the product.

### General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines.
- Ensure that the reloading machine is used in a wellventilated area.
- Keep the reloading area clean and free of clutter to prevent accidents.
- Store all components, including powders and primers, in a safe and secure place away from children and pets.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the reloading machine.
- Be aware of your surroundings and ensure that no one is in close proximity while you are reloading.
- Do not exceed the recommended load specifications for any cartridges.
- If you experience any malfunction or irregular operation, stop using the machine immediately and refer to the troubleshooting section of the manual.

### Specific Safety Precautions for Use

- Ensure that all tools and equipment used in conjunction with the reloading machine are in good working condition.
- Check the machine for any visible damage before use. Do not operate if damaged.
- Do not use the reloading machine under the influence of alcohol, drugs, or any substances that impair your judgment.
- Always keep your hands and other body parts clear of moving parts during operation.
- Be cautious when handling powders and primers, as they are sensitive materials that can ignite.
- Use only recommended components for reloading, including bullets, cases, and powders.
- Follow the manufacturer's recommendations for die sets and other optional accessories.

### Instructions for Installation and Usage

#### 1. Installation

- Place the Dillon XL750 on a sturdy, level surface capable of supporting the machine's weight.
- If using the optional electric case feeder, install it according to the manufacturer's instructions.
- Ensure all components are securely attached and tightened before use.

#### 2. Setup

- Select the appropriate die set for the caliber you are reloading.
- Adjust the machine settings according to the specifications for the selected cartridge.
- Load the appropriate powder and primers into the machine, following the manufacturer's guidelines.

#### 3. Operation

- Begin the reloading process by following the stepbystep instructions provided in the machine's

manual.

- Monitor the operation closely to ensure that everything is functioning correctly.
- Stop the machine immediately if you notice any irregularities or malfunctions.

#### **4. PostUsage**

- Clean the reloading machine after each use to maintain its performance and longevity.
- Store the machine and all components in a safe, dry location.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components (powders, primers, and bullets) according to local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact your local waste management authority for guidance on safe disposal practices.

## **Contact Information for Further Support**

For any questions, concerns, or safety inquiries regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or customer service resources.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with the Dillon XL750 Progressive Reloading Machine. Always prioritize safety and adhere to all recommended practices. Thank you for your attention to these important safety measures.
