## Safety Instructions

### Introduction

Thank you for purchasing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions to ensure safe operation and handling of the machine. Please read this document carefully before using the product.

### General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines.
- Ensure that the reloading machine is used in a wellventilated area.
- Keep the work area clean and organized to prevent accidents.
- Store all components, including powders and primers, in a safe and secure manner.
- Avoid distractions while operating the machine.
- Never leave the machine unattended while in operation.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Ensure that children and pets are kept away from the reloading area.

### Specific Safety Precautions for Use

- **Potential Hazards:**

- Risk of injury from moving parts.
- Exposure to hazardous materials, such as gunpowder and primers.
- Risk of fire if materials are not handled properly.

- **Instructions to Avoid Hazards:**

- Always keep hands and clothing away from moving parts.
- Do not use the machine if it is damaged or malfunctioning.
- Always check that the machine is securely mounted before use.
- Use only recommended components for reloading to avoid malfunctions.
- Follow all local laws and regulations regarding ammunition reloading.

- **AgeSpecific Warnings:**

- This product is intended for use by adults only. Keep out of reach of children.

### Instructions for Installation and Usage

#### Installation

1. Select a stable and level surface for the machine.
2. If using the optional electric case feeder, ensure it is correctly installed according to the manufacturer's instructions.
3. Securely mount the machine using the Strong Mount if applicable.
4. Ensure that all components are correctly assembled before use.

#### Usage

1. Before starting, read the reloading manual specific to the cartridge being used.
2. Ensure that all materials (brass, bullets, powder, and primers) are ready and within reach.

3. Set up the die according to the specifications for the cartridge.
4. Begin reloading by following these steps:
  - Insert brass cases into the machine.
  - Measure and dispense the correct amount of powder.
  - Seat bullets into the cases.
  - Inspect the completed cartridges for quality and safety.
5. Clean the machine regularly to maintain optimal performance and safety.

## **Disposal Instructions**

- Dispose of any unused or expired reloading materials according to local regulations.
- Do not dispose of hazardous materials in regular trash.
- Contact local waste management authorities for proper disposal methods of hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or contact their customer service department for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and responsible practices while reloading ammunition.
