Dillon XL750 Progressive Reloading Machine

Safety Instruction Guide

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the machine. Please read this guide thoroughly before operating the reloading machine.

General Safety Guidelines

- Always ensure that the reloading machine is used in accordance with the manufacturer's instructions.
- Keep the work area clean and organized to prevent accidents.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, while operating the machine.
- Ensure that all tools and equipment used in conjunction with the reloading machine are in good working condition.
- Never leave the machine unattended while it is in operation.
- Keep children and pets away from the work area to prevent accidents.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Be aware of potential hazards associated with reloading, including lead exposure, powder ignition, and mechanical injuries.
- Ensure that the machine is properly grounded to avoid electrical hazards.

- **Avoiding Hazards:**

- Always use the machine in a wellventilated area to minimize the risk of inhaling harmful substances.
- Do not overload the machine beyond its specified capacity.
- Follow all recommended procedures for handling and storing reloading components, including primers, powders, and bullets.
- Never use damaged or defective components in the reloading process.

- **Age Restrictions:**

- This machine is intended for use by individuals aged 18 years and older. Ensure that younger individuals are supervised by a responsible adult when in proximity to the machine.

Instructions for Installation and Usage

- **Installation:**

- Ensure that the reloading machine is placed on a stable and level surface.
- If using the optional electric case feeder, follow the manufacturer's instructions for installation.
- Secure the machine using the Strong Mount if required to prevent movement during operation.

- **Usage:**

- Familiarize yourself with all controls and features of the Dillon XL750 before starting.
- Always check that the machine is clear of obstructions before beginning the reloading process.
- Load cartridges according to the specifications outlined in the manufacturer's guidelines.
- Regularly inspect the machine for wear and tear, and perform maintenance as required.

- **Emergency Procedures:**

- In case of an emergency, immediately turn off the machine and disconnect it from the power source.
- Keep a fire extinguisher rated for flammable materials nearby when operating the machine.

Disposal Instructions

- Dispose of all reloading components, including spent primers, powder, and casings, in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please consult the manufacturer's website or customer support resources. Ensure that you have the model number and any relevant information on hand when seeking assistance.

By following the safety instructions outlined in this guide, you can help ensure a safe and enjoyable reloading experience with your Dillon XL750 Progressive Reloading Machine. Thank you for your attention to safety.
