## Safety Instructions

### Introduction

Thank you for purchasing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions to ensure safe and effective use of your reloading machine. Please read this manual carefully before using the product.

### General Safety Guidelines

- Always keep the reloading area clean and organized to prevent accidents.
- Store all components and materials in a secure location, away from children and pets.
- Use the machine only for its intended purpose as described in this manual.
- Wear appropriate safety gear, including eye protection and gloves, when operating the machine.
- Ensure adequate lighting in your workspace.
- Do not attempt to modify or alter the machine in any way.
- Regularly inspect the machine for wear and tear; replace any damaged or worn parts immediately.
- Keep your hands and clothing away from moving parts during operation.

### Specific Safety Precautions for Use

- Ensure the machine is properly secured to a stable surface before use.
- Do not exceed the recommended load capacity of the machine.
- Only use compatible dies and components as specified by the manufacturer.
- Avoid distractions while operating the machine to maintain focus.
- In case of a malfunction, stop using the machine immediately and consult the troubleshooting section of the manual.
- Do not leave the machine unattended while in operation.
- Be cautious of hot surfaces and materials during and after use.

### Instructions for Installation and Usage

#### Installation

1. **Select a Location:** Choose a stable, flat surface for installation. Ensure there is enough space for operation and maintenance.
2. **Secure the Machine:** Use the Strong Mount (if included) to secure the machine to the bench.
3. **Install the Electric Case Feeder:** If using the optional electric case feeder, follow the manufacturer's instructions for installation.
4. **Set Up the Die:** Obtain a die set separately and install according to the instructions provided with the die set.

#### Usage

1. **Preparation:** Gather all necessary materials, including cases, powder, and bullets.
2. **Adjust Settings:** Adjust the machine settings according to the specific caliber you are reloading (e.g., 338 Remington Ultra Magnum).
3. **Load Components:** Carefully load the cases, powder, and bullets into the machine as per the instructions.
4. **Start Reloading:** Begin the reloading process, monitoring for any irregularities or malfunctions.
5. **Check for Quality:** Regularly check the quality of reloaded ammunition to ensure safety and performance.

## **Disposal Instructions**

- Dispose of any unused or expired components in accordance with local regulations.
- Recycle materials whenever possible, following your local recycling guidelines.
- Ensure that all hazardous materials, such as powders and primers, are disposed of safely.

## **Contact Information for Further Support**

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or contact their customer support team for assistance.

Thank you for prioritizing safety while using the Dillon XL750. We hope you enjoy your reloading experience!
