# Safety Instruction Guide for Dillon XL750 Progressive Reloading Machine

## Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers. This machine is designed to provide a highspeed reloading experience for a variety of rifle and handgun cartridges. To ensure your safety and the proper functioning of the machine, please read and follow this safety instruction guide carefully.

## General Safety Guidelines

- Ensure the machine is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses and hearing protection.
- Keep the reloading area clean and free from clutter to avoid accidents.
- Store all reloading components, including powder and primers, in a secure and dry location.
- Do not use the reloading machine for any purpose other than its intended use.
- Be aware of your surroundings and ensure that children and pets are kept at a safe distance while using the machine.
- Regularly inspect the machine for any signs of wear or damage. If any issues are found, cease use immediately and contact support.

## Specific Safety Precautions for Use

- **Electrical Safety:**
  - Ensure that the machine is properly grounded and that the electrical outlet is suitable for the machine's power requirements.
  - Do not operate the machine with wet hands or in damp conditions.
- **Handling of Components:**
  - Always handle reloading components with care. Use appropriate tools to avoid injury.
  - Keep powder and primers away from heat sources and open flames.
- **Machine Operation:**
  - Do not leave the machine unattended while in operation.
  - Ensure that all safety features are engaged before starting the machine.
  - Follow the recommended loading procedures to avoid overloading cartridges.
- **Emergency Procedures:**
  - In case of an accident or injury, seek medical attention immediately.
  - Familiarize yourself with emergency shutdown procedures for the machine.

## Instructions for Installation and Usage

### 1. Installation:

- Choose a stable and flat surface for the machine setup.
- If using the optional electric case feeder, ensure it is securely attached according to the manufacturer's instructions.

- Ensure that all components are correctly installed before operation.

## 2. **Setup:**

- Adjust the machine height to your preference (32" without the electric case feeder, 38 1/2" with it installed).
- Install the die set as per the specific cartridge being loaded. This must be ordered separately.

## 3. **Operation:**

- Load the required components into the machine as per the loading instructions provided.
- Begin the reloading process by following the stepbystep guide included with your machine.
- Monitor the machine during operation for any unusual sounds or malfunctions.

## 4. **PostUse:**

- After use, clean the machine to prevent buildup of residue.
- Store the machine and components safely to prevent unauthorized access.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of hazardous materials in regular waste. Contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

- For safety inquiries or to report unsafe products, please refer to your local EU contact point or relevant authorities.

Thank you for prioritizing safety while using the Dillon XL750 Progressive Reloading Machine. Your attention to these guidelines helps ensure a safe and enjoyable reloading experience.
