Dillon XL750 Progressive Reloading Machine

Safety Instruction Guide

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading machine. Please read and follow these instructions carefully to minimize risks and enhance your reloading experience.

General Safety Guidelines

- Always read and understand the user manual before operating the machine.
- Keep the reloading machine out of reach of children and unauthorized users.
- Ensure a clean and organized workspace to prevent accidents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while reloading.
- Do not consume food or beverages in the reloading area to avoid contamination.
- Regularly inspect the machine for wear and tear; replace any damaged parts immediately.
- Follow all local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- **Hazardous Materials:** Handle all reloading components, such as powders and primers, with care. Store them in a cool, dry place away from direct sunlight and heat sources.
- **Electrical Safety:** If using the optional electric case feeder, ensure that the power supply is compatible and properly grounded. Do not overload electrical circuits.
- **Mechanical Safety:** Keep hands and loose clothing away from moving parts during operation. Ensure that the machine is turned off and unplugged when not in use or when performing maintenance.
- **Emergency Procedures:** In case of an accident or malfunction, stop using the machine immediately and follow emergency procedures as outlined in the user manual.

Instructions for Installation and Usage

1. Installation:

- Choose a stable and level surface for the machine.
- If using the Strong Mount, ensure it is securely attached to the workbench.
- Install the electric case feeder according to the manufacturer's instructions, if applicable.
- Ensure all components are properly assembled before use.

2. Usage:

- Set up the die set according to the caliber you are reloading. Note that the die set must be ordered separately.
- Adjust the machine height to your comfort level, either 32" without the case feeder or 38 1/2" with it installed.
- Follow the reloading process as outlined in the user manual, ensuring that each step is completed correctly.
- Regularly check the powder level and adjust as necessary using the Powdercheck Die and Low Powder Sensor.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local hazardous waste regulations.
- Recycle packaging materials whenever possible.
- Ensure that all waste is disposed of safely to prevent environmental contamination.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or contact your local dealer for assistance. Always ensure you have the latest information regarding safety recalls and product updates.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and enjoyable reloading experience with your Dillon XL750 Progressive Reloading Machine.
