## Safety Instructions

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions and guidelines to ensure a safe and effective reloading experience. Please read this manual carefully before using the machine to understand the safety precautions and operational procedures.

### General Safety Guidelines

- Always read and follow the manufacturer's instructions.
- Keep the reloading area clean and organized to prevent accidents.
- Ensure proper lighting in the reloading area to avoid mistakes.
- Store all reloading components, including powder and primers, in a safe and secure location, away from children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Never leave the reloading machine unattended while in operation.
- Be aware of your surroundings and ensure no one is in close proximity while reloading.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

### Specific Safety Precautions for Use

- **Hazardous Materials:** Handle all reloading components, including powders and primers, with care. Follow the manufacturer's guidelines regarding storage and handling.
- **Electrical Safety:** If using the optional electric case feeder, ensure that all electrical connections are secure and comply with local electrical safety standards.
- **Die Set:** Always ensure the die set is properly installed and secured before operation.
- **Personal Safety:** Use safety glasses to protect your eyes from debris and dust. Gloves can help protect your hands from chemicals and sharp objects.
- **Children and Vulnerable Groups:** Keep the reloading machine and all components out of reach of children and vulnerable individuals.

### Instructions for Installation and Usage

#### Installation

1. **Location:** Place the Dillon XL750 on a sturdy, level workbench that can support its weight and withstand the vibrations during operation.
2. **Height Adjustment:** The machine height from the bench is 32" without the optional electric case feeder and 38 1/2" with the electric case feeder installed. Adjust your work surface accordingly.
3. **Secure Fastening:** Ensure that the machine is securely fastened to the workbench to prevent movement during operation.
4. **Die Set:** Order and install the appropriate die set separately, following the manufacturer's instructions.

#### Usage

1. **Preparation:** Before starting, ensure all components are ready and that the workspace is clean and free of obstructions.
2. **Loading Process:**
  - Set up the machine according to the provided instructions.
  - Load the appropriate cartridges (e.g., 4570 Government) as specified in the reloading guide.
  - Monitor the reloading process closely and adjust settings as needed.

3. **PostUse:** After reloading, clean the machine and store all components safely.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components in accordance with local regulations for hazardous materials.
- Follow proper disposal methods for any packaging materials associated with the reloading machine and components.

## **Contact Information for Further Support**

For further assistance, please refer to the manufacturer's website or contact their customer support. Ensure to have the product details and any relevant information ready for a more efficient response.

By following these safety instructions and guidelines, you can ensure a safe and successful reloading experience with the Dillon XL750 Progressive Reloading Machine. Thank you for prioritizing safety while enjoying your reloading activities.
