Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers, specifically designed for loading various rifle and handgun cartridges. This guide provides essential safety instructions to ensure safe and effective use of the machine. Please read this document carefully before using the product.

General Safety Guidelines

- Always ensure you are in a wellventilated area when using the reloading machine.
- Wear appropriate personal protective equipment, including safety glasses and hearing protection.
- Keep the work area clean and organized to prevent accidents.
- Ensure that children and pets are kept away from the reloading area.
- Do not attempt to modify the machine or use it for any purpose other than reloading ammunition.
- Regularly inspect the machine for any signs of wear or damage before use.
- Familiarize yourself with the operation of the machine by reviewing the user manual and following all guidelines.

Specific Safety Precautions for Use

- **Electrical Safety:** Ensure that the machine is connected to a properly grounded electrical outlet. Avoid using extension cords.
- **Component Handling:** Be cautious when handling components such as dies, powder, and primers. Follow manufacturer guidelines for safe handling.
- **Ammunition Safety:** Only use the machine for reloading compatible cartridges. Refer to the specifications for appropriate calibers.
- **Powder Handling:** Store gunpowder in a cool, dry place away from direct sunlight and heat sources. Do not exceed recommended powder charges.
- **Case Feeder Usage:** If using the optional electric case feeder, ensure it is installed correctly and follow all safety guidelines provided in the installation manual.

Instructions for Installation and Usage

1. Unpacking the Machine:

- Carefully remove the Dillon XL750 from its packaging.
- Inspect the machine for any damage that may have occurred during shipping.

2. Setting Up the Machine:

- Place the machine on a sturdy, stable workbench at a comfortable height.
- If using the Strong Mount, follow the installation instructions provided to secure the machine.

3. Installing the Die Set:

- Purchase the appropriate die set separately as it is not included with the machine.
- Follow the die installation instructions carefully to ensure proper alignment and function.

4. Using the Machine:

- Ensure that all components are correctly installed before beginning the reloading process.

- Follow the stepbystep reloading instructions provided in the user manual.
- Monitor the reloading process closely to detect any issues immediately.

5. PostUse Maintenance:

- After using the machine, clean all components to remove any residue.
- Store the machine and all components in a safe, dry location.

Disposal Instructions

- Dispose of any unused or expired components, such as primers and powder, according to local regulations.
- Do not dispose of ammunition in regular trash. Follow local guidelines for the safe disposal of ammunition.

Contact Information for Further Support

For any safety inquiries or support regarding the Dillon XL750 Progressive Reloading Machine, please contact your local Dillon representative or visit the official Dillon website for further assistance.
