Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This manual provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading machine. Please read this document carefully before operating the machine.

General Safety Guidelines

- Always use the Dillon XL750 in a wellventilated area.
- Keep the workspace clean and free from clutter to avoid accidents.
- Ensure that all tools and equipment are in good working condition before use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Keep the machine out of reach of children and vulnerable individuals.
- Do not use the machine for any purpose other than its intended use.
- Be aware of your surroundings and avoid distractions while operating the machine.
- Regularly inspect the machine for any signs of wear or damage.

Specific Safety Precautions for Use

- **Electrical Safety:**
 - Ensure that the machine is connected to a properly grounded electrical outlet.
 - Avoid using extension cords that may pose a tripping hazard.
- **Handling Components:**
 - Handle all reloading components with care to avoid injury.
 - Store components in a secure location away from children.
- **Die Set:**
 - Always use the correct die set for the caliber you are reloading.
 - Ensure dies are properly installed before operation.
- **Powder Handling:**
 - Use caution when handling gunpowder. Follow all safety guidelines provided by the powder manufacturer.
 - Avoid overfilling powder measures to prevent spills and potential hazards.
- **Bullet Tray:**
 - Use the bullet tray to keep bullets organized and prevent accidental spills.
- **Case Feeder:**
 - If using the optional electric case feeder, follow the installation instructions carefully.
 - Ensure that the feeder is securely attached before operation.

Instructions for Installation and Usage

Installation

1. Unpacking:

- Carefully unpack the Dillon XL750 and ensure all parts are included.
- Inspect the machine for any visible damage.

2. Mounting:

- Place the machine on a stable workbench that can support its weight.

- If using a Strong Mount, follow the installation instructions provided with the mount.

3. Setting Up:

- Install the die set according to the manufacturer's instructions.
- Attach the optional electric case feeder if desired.

Usage

1. Preparation:

- Gather all necessary components: brass cases, bullets, and powder.
- Ensure the workspace is organized and free from distractions.

2. Loading Process:

- Follow the stepbystep reloading process as outlined in the machine's user manual.
- Monitor the operation closely to ensure everything is functioning correctly.

3. PostUse:

- After reloading, clean the machine to prevent residue buildup.
- Store all components in a secure location.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Recycle packaging materials when possible.
- Do not dispose of gunpowder or other hazardous materials in regular waste.

Contact Information for Further Support

For any safety inquiries or support regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's contact information provided in the product packaging or visit the official website. Always ensure you are seeking assistance from authorized representatives to maintain safety standards.

By following these safety instructions, you will help ensure a safe and effective reloading experience with your Dillon XL750 Progressive Reloading Machine. Stay safe and enjoy your reloading activities!
