Dillon XL750 Progressive Reloading Machine

Safety Instruction Guide

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Rifle Calibers. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading machine. Please read this manual thoroughly before operating the machine.

General Safety Guidelines

- Always operate the Dillon XL750 in a wellventilated area.
- Keep the workspace clean and organized to prevent accidents.
- Ensure that all safety guards and covers are in place before use.
- Use only recommended components and accessories for the Dillon XL750.
- Store all reloading components, including primers and powders, out of reach of children and pets.
- Do not exceed the manufacturer's recommended load limits.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using the machine.
- Be aware of your surroundings and ensure that no one is in close proximity while operating the reloading machine.
- Do not attempt to modify the machine or use it for purposes other than intended.

Specific Safety Precautions for Use

- **Hazard Identification:** The reloading process involves the handling of potentially hazardous materials, such as gunpowder and primers. There is a risk of accidental discharge if the machine is not used properly.
- **Avoiding Hazards:** Always handle components with care and follow proper procedures for loading and unloading. Keep fingers and hands clear of moving parts during operation. Do not leave the machine unattended while in use.
- **Age Restrictions:** This product is intended for use by individuals aged 18 and older. Ensure that minors are supervised when near the machine.

Instructions for Installation and Usage

Installation

1. **Select a Suitable Location:** Choose a sturdy and stable workbench that can support the weight of the machine. Ensure the location is welllit and free from distractions.
2. **Assemble the Machine:** Follow the assembly instructions provided in the product manual. Ensure all components are securely fastened.
3. **Install Optional Accessories:** If using an electric case feeder, follow the manufacturer's instructions for installation. Ensure that all optional accessories are compatible with the Dillon XL750.

Usage

1. **Preparing for Reloading:** Gather all necessary reloading components (brass cases, bullets, primers, and powder). Verify that you have the correct die set for your chosen caliber, as it must be ordered separately.
2. **Loading the Machine:** Follow the specific loading instructions for the Dillon XL750. Ensure that the machine is not overloaded and that components are used within specified limits.
3. **Operation:** Begin the reloading process by following the stepbystep instructions in the manual. Monitor the operation closely and stop immediately if any unusual noises or malfunctions occur.

4. **PostUse Care:** Clean the machine after each use to prevent the buildup of residues. Store the machine and all components in a safe, dry location.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of gunpowder or primers in regular trash. Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support
