Dillon XL750 Progressive Reloading Machine

Safety Instruction Guide

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions to ensure the safe and effective use of the machine. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Ensure you have read and understood all safety instructions before operating the machine.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and hearing protection, while reloading.
- Keep the reloading area clean and organized to prevent accidents.
- Store all components, including powders, primers, and ammunition, in a secure and appropriate manner.
- Only use the machine for its intended purpose, which is to reload rifle and handgun cartridges.
- Be aware of your surroundings and ensure that children and pets are kept at a safe distance while reloading.
- Regularly inspect the machine for any signs of wear or damage. Do not use the machine if it is not in proper working condition.

Specific Safety Precautions for Use

- **Electrical Safety:**

- Ensure the machine is properly grounded and plugged into a suitable outlet.
- Avoid using the machine in wet or damp conditions to prevent electrical hazards.

- **Handling of Components:**

- Store all reloading components in a cool, dry place away from direct sunlight.
- Handle all powders and primers with care, following the manufacturer's guidelines.

- **Operation:**

- Do not attempt to operate the machine if you are fatigued or under the influence of alcohol or drugs.
- Always follow the manufacturer's instructions for loading and operating the machine.
- Do not exceed the recommended load limits for the machine and components.

- **Emergency Procedures:**

- In case of an accident, such as an explosion or fire, follow the emergency procedures outlined by local authorities.
- Keep a fire extinguisher nearby and ensure it is suitable for chemical fires.

Instructions for Installation and Usage

- **Installation:**

1. Choose a stable and sturdy workbench to place the Dillon XL750.
2. Ensure the work area is welllit and free from distractions.

3. If using the optional electric case feeder, follow the manufacturer's instructions for proper installation.
4. Secure the machine to the workbench using the provided mounting hardware.

- **Usage:**

1. Before starting, ensure that all necessary components (dies, shell plates, etc.) are available and properly set up.
2. Set the machine height to a comfortable working level, adjusting to 32" without the case feeder or 38 1/2" with it installed.
3. Follow the stepbystep instructions in the user manual to load cartridges safely.
4. Monitor the reloading process closely, checking for any irregularities or malfunctions.
5. After use, clean the machine to prevent the buildup of residue.

Disposal Instructions

- Dispose of any unused powders, primers, or other reloading materials in accordance with local regulations.
- Do not throw away hazardous materials in regular trash. Instead, take them to a designated hazardous waste disposal facility.
- Recycle any nonhazardous materials, such as packaging, according to local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's contact information provided in the product packaging or on their official website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and stay informed about best practices in reloading.
