Dillon XL750 Progressive Reloading Machine

Safety Instruction Guide

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides important safety instructions and information to ensure safe and effective use of the reloading machine. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use of the reloading machine.
- Ensure that the reloading area is wellventilated and free from any flammable materials.
- Keep the reloading machine out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the machine.
- Regularly inspect the machine for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended load limits for the Dillon XL750.
- Ensure that all components, including dies and shell holders, are properly installed before use.
- Avoid wearing loose clothing or jewelry that may become caught in moving parts.
- Do not operate the machine while under the influence of drugs or alcohol.
- Always keep fingers and other body parts clear of moving parts during operation.
- Ensure that the machine is stable and securely mounted to a workbench before use.

Instructions for Installation and Usage

Installation

1. Choose a stable and level workbench that can support the weight of the Dillon XL750.
2. If using the optional electric case feeder, follow the manufacturer's instructions for installation.
3. Secure the machine to the workbench using the provided mounting hardware.
4. Install the desired die set (sold separately) according to the manufacturer's instructions.

Usage

1. Set up your workspace by gathering all necessary materials, including cartridges, bullets, and powder.
2. Ensure that the machine is unplugged if you are using the electric case feeder during setup.
3. Load the materials into the machine according to the instructions provided in the die set manual.
4. Doublecheck that all components are secure and properly positioned before starting the machine.
5. Plug in the electric case feeder (if applicable) and switch on the power.
6. Begin the reloading process, monitoring the machine for any unusual sounds or movements.
7. If any issues arise, stop the machine immediately and assess the situation.

Disposal Instructions

- Dispose of any unused or expired components, such as gunpowder and primers, in accordance with local hazardous waste regulations.
- Do not dispose of the reloading machine in regular household waste. Follow local guidelines for electronics disposal.

Contact Information for Further Support

For any questions or concerns regarding safety or operation, please refer to the manufacturer's website or contact their customer support team.

By following these guidelines, you can ensure a safe and successful experience with your Dillon XL750 Progressive Reloading Machine. Thank you for your attention to safety.
