Dillon XL750 Progressive Reloading Machine

Safety Instruction Guide

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Pistol Calibers. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your reloading machine. Please read this document carefully before using the product.

General Safety Guidelines

- **Product Safety:** Always ensure that the Dillon XL750 is used in accordance with the manufacturer's instructions. This product is designed for reloading ammunition and should not be used for any other purpose.
- **Enhanced Recalls:** Stay informed about product recalls. In case of any safety notices related to this product, please follow the instructions provided by the manufacturer.
- **Online Shopping:** If you purchased this product online, ensure that the retailer complies with safety requirements. Always buy from reputable sellers.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors and ensure that only trained adults operate the machine.
- **EU Contact Point:** For any safety inquiries, please refer to the manufacturer's contact information, which should be available at the point of purchase.
- **Rapid Alerts:** Be aware of the EU Safety Gate system for updates on product safety and recalls.

Specific Safety Precautions for Use

- **Read the Manual:** Always read the user manual thoroughly before operating the Dillon XL750.
- **Personal Protective Equipment (PPE):** Wear appropriate PPE such as safety glasses and gloves to protect against potential hazards.
- **Work Area:** Ensure that your work area is clean, welllit, and free from distractions. Use a sturdy workbench to support the machine.
- **Electrical Safety:** If using the optional electric case feeder, ensure that all electrical connections are secure and that the power supply is appropriate for the machine.
- **Die Set:** A die set must be ordered separately. Ensure that you use the correct die set for the caliber you are reloading.
- **Inspection:** Regularly inspect the machine for any signs of wear or damage. Do not use the machine if it is not in proper working condition.
- **Avoid Overloading:** Follow the manufacturer's guidelines for loading capacities to prevent overloading the machine, which can lead to malfunctions.

Instructions for Installation and Usage

- **Installation:**

1. Choose a stable work surface that can support the weight of the Dillon XL750.
2. Unpack the machine and ensure all components are present.
3. If using the electric case feeder, follow the manufacturer's instructions for installation.
4. Secure the machine to the workbench using the provided mounting hardware.

- **Usage:**

1. Set up your reloading station by organizing your materials and tools within reach.
2. Review the user manual for detailed instructions on adjusting the machine for different calibers.

3. Ensure that all safety features are engaged before starting the reloading process.
4. Follow the stepbystep reloading instructions provided in the manual.
5. After reloading, inspect each cartridge for quality assurance before use.

Disposal Instructions

- **Disposal of Components:** Dispose of any packaging materials, such as plastic and cardboard, in accordance with local recycling regulations.
- **Expired or Damaged Products:** If the machine or any of its components are damaged or no longer functional, follow local guidelines for the disposal of electronic waste.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the contact information provided by the retailer or manufacturer at the time of purchase.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the Dillon XL750 Progressive Reloading Machine. Thank you for your attention to safety!
