Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Pistol Calibers. This guide provides essential safety instructions to ensure the safe and effective use of the reloading machine. Please read this manual carefully before using the product.

General Safety Guidelines

- Ensure that all users read and understand these safety instructions before operating the machine.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and hearing protection.
- Keep the work area clean and free of obstructions to prevent accidents.
- Do not operate the machine under the influence of drugs or alcohol.
- Ensure that children and pets are kept away from the work area while using the machine.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The reloading machine can produce high pressures during operation, which may lead to accidents if not used correctly.
 - Improper handling of components (powder, primers, and bullets) can lead to serious injuries or accidents.
- **Avoiding Hazards:**
 - Always doublecheck that the machine is properly set up before starting.
 - Do not exceed the recommended load specifications for any cartridge.
 - Handle all components with care and follow the manufacturer's instructions for storage and use.
 - Never leave the machine unattended while in operation.
 - Use only recommended parts and accessories designed for the Dillon XL750.
- **Age Restrictions:**
 - This machine is intended for use by adults only. Ensure that minors are supervised if they are present in the work area.

Instructions for Installation and Usage

1. Installation:

- Place the Dillon XL750 on a sturdy, stable workbench that can support the weight of the machine and the materials used.
- Ensure that the machine is level to prevent malfunctions during operation.
- If using an optional electric case feeder, follow the specific installation instructions provided with the feeder.

2. Setup:

- Familiarize yourself with all parts of the machine before use, including the die set (ordered separately).
- Check that all components are securely attached and functioning properly.

3. Using the Machine:

- Load the appropriate cartridge components (powder, primers, bullets) according to the manufacturer's specifications.
- Follow safe reloading practices, including doublechecking powder measurements and bullet seating depths.
- Monitor the machine during operation for any unusual noises or malfunctions.

4. After Use:

- Unload any remaining components and clean the machine according to the manufacturer's maintenance guidelines.
- Store the machine and components in a secure location, out of reach of children and unauthorized users.

Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Do not throw away hazardous materials (such as primers and powders) in regular trash. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's contact information provided with the product.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the Dillon XL750 Progressive Reloading Machine. Always prioritize safety and adhere to local regulations when reloading ammunition. Thank you for your attention to these important guidelines.
