Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Pistol Calibers. This guide provides essential safety instructions to ensure the safe and effective use of your reloading machine. Please read this manual carefully before using the product.

General Safety Guidelines

- Always read and understand the instructions before operating the machine.
- Ensure that the reloading area is clean, welllit, and free of distractions.
- Keep the reloading machine out of reach of children and unauthorized users.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Store all reloading materials, including powder and primers, in a safe and secure location.
- Do not exceed the manufacturer's recommended load specifications.
- Regularly inspect the machine for any signs of wear or damage.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware of potential hazards, including:
 - Mechanical injuries from moving parts.
 - Chemical exposure from powders and primers.
 - Fire hazards from improper storage of materials.
- **Avoiding Hazards:**
 - Keep hands and loose clothing away from moving parts during operation.
 - Use caution when handling powders and primers; avoid static electricity.
 - Ensure the machine is properly grounded to prevent electrical hazards.
 - Do not use the machine in damp or wet conditions.
- **Age Restrictions:** This machine is intended for use by adults. Ensure that minors are supervised at all times if they are present in the reloading area.

Instructions for Installation and Usage

- **Installation:**
 1. Choose a stable and secure surface to place the reloading machine.
 2. Ensure that the machine is level and securely fastened to the bench.
 3. If using the optional electric case feeder, follow the manufacturer's instructions for installation.
- **Usage:**
 1. Before starting, ensure that all components are in place and secure.
 2. Set up your die set according to the instructions provided (sold separately).
 3. Check that the powder measure is calibrated correctly before use.
 4. Begin reloading by following the stepbystep instructions in the user manual.
 5. Monitor the reloading process closely and stop immediately if any issues arise.

Disposal Instructions

- Dispose of all reloading materials, including used primers and powder, in accordance with local regulations.
- Do not discard hazardous materials in regular trash. Contact local waste management for proper disposal methods.
- Ensure that the reloading machine is cleaned and maintained regularly to prolong its lifespan and ensure safety.

Contact Information for Further Support

For any inquiries regarding safety or product support, please contact your local distributor or the manufacturer. Ensure you have your product information ready for assistance.

By following these safety instructions, you can ensure a safe and efficient reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and take the necessary precautions to protect yourself and others while reloading. Thank you for your attention to these important guidelines.
