Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This highspeed reloading machine is designed to safely load a variety of common rifle and handgun cartridges. To ensure your safety and the proper functioning of the machine, please read the following safety instructions carefully.

General Safety Guidelines

- Always read and understand the user manual before operating the machine.
- Ensure that the machine is used in a wellventilated area to avoid exposure to harmful fumes.
- Keep the reloading area clean and free from clutter to prevent accidents.
- Store all components, including bullets and powders, in a safe and secure manner, away from children and pets.
- Wear appropriate safety gear, including safety glasses and hearing protection, while operating the machine.
- Do not operate the machine under the influence of alcohol, drugs, or any substances that may impair your judgment.
- Always follow the manufacturer's instructions for loading and operating the machine.
- Be aware of your surroundings and ensure that no one is in close proximity while the machine is in use.

Specific Safety Precautions for Use

- Ensure that the machine is securely mounted on a stable surface before use.
- Use only the appropriate die set for the cartridges you are reloading.
- Regularly inspect the machine for any signs of wear or damage before each use.
- Do not overload the machine with components beyond the manufacturer's specifications.
- Avoid using excessive force when operating the machine; let it function as intended.
- If you encounter any issues during operation, stop immediately and consult the user manual or seek professional assistance.
- Keep fingers and other body parts clear of moving parts during operation to prevent injury.
- Do not leave the machine unattended while it is in operation.

Instructions for Installation and Usage

1. Unboxing and Setup

- Carefully remove the Dillon XL750 from the packaging.
- Inspect all components for any damage during shipping.
- Choose a stable and secure surface for installation.

2. Mounting the Machine

- Use the provided mounting hardware to securely attach the machine to a workbench or table.
- Ensure that the machine is level and does not wobble.

3. Installing the Die Set

- Select the appropriate die set for the cartridges you will be using.
- Follow the instructions in the user manual to install the die set correctly.

4. Loading Components

- Gather all necessary components: cases, primers, powder, and bullets.
- Follow the specific loading instructions for each component as outlined in the user manual.

5. Operating the Machine

- Turn on the machine if using the electric case feeder.
- Begin the reloading process by following the stepbystep instructions in the user manual.
- Monitor the operation closely to ensure everything is functioning correctly.

6. PostOperation Care

- After reloading, clean the machine according to the instructions provided in the user manual.
- Store all components safely and securely.

Disposal Instructions

- Dispose of any unused or outdated reloading components in accordance with local regulations.
- Do not dispose of powder or primers in regular trash; contact local authorities for proper disposal methods.
- Recycle packaging materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the user manual or contact the manufacturer directly.

By following these safety instructions, you can ensure a safe and efficient reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and do not hesitate to seek assistance if needed.
