Dillon XL750 Progressive Reloading Machine

Safety Instruction Guide

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Pistol Calibers. This guide provides essential safety instructions to ensure safe and effective use of your reloading machine. Please read this guide carefully before using the product to avoid hazards and ensure compliance with safety regulations.

General Safety Guidelines

- Always operate the Dillon XL750 in a wellventilated area.
- Keep the reloading machine out of reach of children and vulnerable individuals.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, during operation.
- Ensure that the work area is clean and free from clutter to prevent accidents.
- Do not use the machine for any purpose other than its intended use.
- Regularly inspect the machine for any signs of damage or wear.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- **Hazardous Materials:** Handle all reloading components, such as powders and primers, with care. Store them in a cool, dry place away from direct sunlight.
- **Electrical Safety:** If using the optional electric case feeder, ensure that your electrical outlet meets the required specifications. Do not overload the circuit.
- **Machine Operation:** Always keep hands clear of moving parts during operation. Do not attempt to clear jams or obstructions while the machine is running.
- **Tool Use:** Use only the recommended tools and accessories for the Dillon XL750. Do not modify the machine in any way.
- **Emergency Procedures:** In case of an emergency, immediately turn off the machine and disconnect it from the power source if applicable.

Instructions for Installation and Usage

1. Installation:

- Place the Dillon XL750 on a sturdy, level workbench that can support its weight.
- If using the optional electric case feeder, follow the manufacturer's instructions for installation.
- Ensure that the machine is securely mounted to prevent movement during operation.

2. Setup:

- Install the appropriate die set for your chosen cartridge. Note that die sets must be ordered separately.
- Set the machine height to your preference, ensuring it is comfortable for operation.
- Ensure that all components are securely fastened before use.

3. Usage:

- Before starting, doublecheck that all materials are in place and that the machine is free of obstructions.
- Load the cartridges according to the specifications for the Dillon XL750.

- Monitor the reloading process closely and be prepared to stop the machine if any issues arise.
- After use, clean the machine to prevent buildup of residue and maintain optimal performance.

Disposal Instructions

- Dispose of all reloading materials, including spent primers and unused powders, in accordance with local regulations.
- Do not dispose of hazardous materials in regular household waste. Contact your local waste disposal authority for guidance on safe disposal methods.
- Ensure that the machine itself is disposed of in an environmentally responsible manner when it reaches the end of its life.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Dillon XL750 Progressive Reloading Machine. Thank you for your attention to safety and compliance.
