## Safety Instruction Guide

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions to ensure the safe and effective use of your reloading machine. Please read this document carefully before operating the machine.

### General Safety Guidelines

- Always read and understand the user manual before using the Dillon XL750.
- Ensure that the machine is used in a wellventilated area, away from flammable materials.
- Keep the work area clean and organized to prevent accidents.
- Do not operate the machine while under the influence of drugs, alcohol, or fatigue.
- Ensure that all safety guards and devices are in place and functioning before use.
- Use personal protective equipment (PPE), such as safety glasses and gloves, as needed.
- Keep children and pets away from the reloading area at all times.

### Specific Safety Precautions for Use

- Inspect the machine regularly for signs of wear or damage. Do not use a damaged machine.
- Only use the machine for its intended purpose; avoid modifying it in any way.
- Always doublecheck that the correct die set is installed and properly adjusted before starting the reloading process.
- Handle all components, including bullets and powder, with care. Follow the manufacturer's guidelines for storage and handling.
- Never exceed the recommended load limits for the cartridges you are reloading.
- If you experience any unusual noises or malfunctions during operation, stop using the machine immediately and consult the user manual or a qualified technician.

### Instructions for Installation and Usage

#### Installation

1. Choose a sturdy, stable workbench for the Dillon XL750.
2. Ensure the machine is level and securely attached to the workbench.
3. If using the optional electric case feeder, install it according to the manufacturer's instructions.
4. Ensure that all components are securely fastened before proceeding.

#### Usage

1. Prepare your workspace by gathering all necessary materials, including cartridges, bullets, powder, and tools.
2. Set up your die set according to the instructions provided in the user manual.
3. Load the machine with the appropriate components, ensuring that everything is correctly positioned.
4. Follow the reloading procedure outlined in the user manual, paying close attention to each step.
5. After reloading, store completed cartridges in a safe and secure location.

### Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not throw hazardous materials, such as powder or primers, in regular trash.

- Contact your local waste management facility for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the user manual or contact the manufacturer directly for support.

## **Conclusion**

By following these safety instructions, you can ensure a safe and efficient experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and stay informed about best practices for reloading. Thank you for your attention to these guidelines.
