# Safety Instruction Guide for Dillon XL750 Progressive Reloading Machine

## Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Pistol Calibers. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your reloading machine. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure that the reloading machine is used in a wellventilated area to avoid inhalation of powder particles.
- Always follow the manufacturer's instructions for setup, operation, and maintenance of the machine.
- Keep the reloading machine out of reach of children and unauthorized users.
- Wear appropriate safety gear, including safety glasses and hearing protection, when operating the machine.
- Do not use the machine if you are under the influence of drugs or alcohol.
- Regularly inspect the machine for signs of wear or damage. Do not use if any parts are worn or broken.
- Store all reloading components, including powder and primers, in a safe and secure location.
- Be aware of your surroundings and ensure that no one is in close proximity while reloading.

## Specific Safety Precautions for Use

- Always verify that the machine is correctly set up before starting the reloading process.
- Use only the specified die set for the Dillon XL750, and ensure it is properly installed.
- Never overload the machine with components beyond its specified capacity.
- Keep hands and clothing clear of moving parts during operation to prevent injury.
- Do not leave the machine unattended while it is in operation.
- If a malfunction occurs, stop using the machine immediately and refer to the troubleshooting section of the manual.

## Instructions for Installation and Usage

### Installation

1. **Choose a Suitable Location:** Ensure the machine is placed on a stable workbench that can support its weight.
2. **Assemble the Machine:** Follow the manufacturer's assembly instructions carefully.
3. **Install the Die Set:** Order the appropriate die set separately and follow the installation instructions provided with the die set.
4. **Attach the Electric Case Feeder (Optional):** If using the optional electric case feeder, install it according to the manufacturer's guidelines.
5. **Check All Connections:** Ensure that all components are securely fastened before using the machine.

### Usage

1. **Preparation:**
  - Gather all necessary components, including cases, primers, powder, and bullets.
  - Ensure the workspace is clean and organized.
2. **Loading Process:**

- Start the machine according to the manufacturer's instructions.
- Monitor the reloading process closely, ensuring proper operation.
- Stop the machine immediately if you notice any irregularities.

### **3. PostUse Maintenance:**

- Clean the machine after each use to prevent buildup of powder and debris.
- Store the machine in a dry and secure location when not in use.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of hazardous materials, such as primers and gunpowder, in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or operation of the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's contact details provided in the product packaging or on the official website.

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with your Dillon XL750 Progressive Reloading Machine. Always prioritize safety and adhere to the regulations set forth by the EU General Product Safety Regulation. Thank you for your attention to these important safety measures.
