Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Pistol Calibers. This guide provides essential safety instructions to ensure the safe and effective use of your reloading machine. Please read this manual carefully and keep it for future reference.

General Safety Guidelines

- Always read and understand the instruction manual before using the machine.
- Ensure that the reloading machine is used only for its intended purpose.
- Keep the reloading area clean and organized to prevent accidents.
- Use personal protective equipment, such as safety glasses and gloves, when reloading.
- Store all components, including powder and primers, in a safe and secure location away from children and unauthorized users.
- Report any unsafe products or accidents to local authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the machine in any way.
- Ensure that all tools and accessories are compatible with the Dillon XL750.
- Be aware of the potential hazards associated with reloading, such as exposure to lead and gunpowder fumes.
- Avoid distractions while operating the reloading machine.
- Always doublecheck the powder charge and bullet seating depth before proceeding with reloading.
- Do not leave the reloading machine unattended while in operation.

Instructions for Installation and Usage

Installation

1. **Choose a Stable Surface:** Ensure the reloading machine is placed on a sturdy and level workbench.
2. **Secure the Machine:** Use the optional Strong Mount to secure the machine to the work surface, if available.
3. **Install the Die Set:** Order a die set separately and follow the manufacturer's instructions for installation.
4. **Attach the Electric Case Feeder:** If using the optional electric case feeder, install it according to the provided instructions.
5. **Check All Connections:** Ensure that all components are correctly connected and secured before use.

Usage

1. **Preparation:** Gather all necessary materials, including brass cases, primers, powder, and bullets.
2. **Safety Check:** Before starting, perform a safety check to ensure the machine is in proper working order.
3. **Start Reloading:**
 - Follow the stepbystep process for reloading as described in the die set instructions.
 - Monitor the operation closely and check for any irregularities.
4. **PostUse Maintenance:** After reloading, clean the machine and store it in a safe location.

Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Follow proper hazardous waste disposal guidelines for gunpowder and primers.
- Ensure that all materials are disposed of safely to prevent environmental contamination.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's customer service resources. Ensure you have the product details ready for efficient assistance.

Thank you for prioritizing safety while using the Dillon XL750 Progressive Reloading Machine. Enjoy your reloading experience!
