## Safety Instructions

### Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine. This guide provides essential safety instructions to ensure the safe and effective use of your reloading machine. Please read this document carefully before operating the machine to minimize risks and ensure compliance with the EU General Product Safety Regulation (GPSR).

### General Safety Guidelines

- Always ensure the machine is used in accordance with the manufacturer's instructions.
- Keep the reloading machine out of reach of children and vulnerable individuals.
- Regularly inspect the machine for any signs of wear or damage.
- Use only compatible components and accessories as specified by the manufacturer.
- Ensure a clean and organized workspace to prevent accidents.
- Be aware of your surroundings while operating the machine to avoid distractions or hazards.
- Report any unsafe conditions or accidents to the appropriate authorities immediately.
- Check for recall updates on the EU's Safety Gate platform to stay informed about safety issues related to your product.

### Specific Safety Precautions for Use

- **Electrical Safety:**
  - Ensure the machine is properly grounded before use.
  - Do not operate the machine with wet hands or in damp conditions.
- **Handling Components:**
  - Use caution when handling sharp tools or components.
  - Store all components in a safe and secure manner when not in use.
- **Reloading Process:**
  - Follow all reloading procedures as outlined in the user manual.
  - Do not exceed the recommended load limits for any cartridge.
  - Always wear appropriate safety gear, including eye protection, when reloading.
- **Maintenance:**
  - Disconnect the machine from the power supply before performing any maintenance.
  - Regularly clean the machine to prevent buildup of debris and ensure smooth operation.

### Instructions for Installation and Usage

#### 1. Installation:

- Place the Dillon XL750 on a sturdy, level workbench.
- Ensure there is sufficient space around the machine for safe operation.
- If using the optional electric case feeder, follow the specific installation instructions provided with the feeder.

#### 2. Setup:

- Assemble the die set according to the manufacturer's specifications.
- Ensure all components are securely attached and functioning properly before use.

#### 3. Operating the Machine:

- Load the appropriate cartridge and ensure it is seated correctly in the machine.
- Follow the reloading steps as outlined in the user manual.
- Monitor the reloading process closely to catch any potential issues early.

#### **4. PostUse:**

- After reloading, clean the machine and store all components safely.
- Disconnect the power supply if the machine will not be used for an extended period.

## **Disposal Instructions**

- Dispose of any unused or expired components in accordance with local regulations.
- Do not dispose of electrical components in regular household waste. Follow local ewaste disposal guidelines.
- Ensure that all materials used in the reloading process are disposed of safely and responsibly.

## **Contact Information for Further Support**

For any questions regarding the operation or safety of the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's contact points or consult the user manual. It is essential to have access to support for any inquiries related to safety or product use.

By following these safety instructions, you can ensure a safer reloading experience with the Dillon XL750 Progressive Reloading Machine. Always prioritize safety and stay informed about best practices in reloading.
