Dillon XL750 Progressive Reloading Machine

Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Progressive Reloading Machine for Pistol Calibers. This product is designed for safe and efficient reloading of ammunition. To ensure your safety and the proper functioning of the machine, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and hearing protection, when operating the reloading machine.
- Keep the workspace clean and free of clutter to prevent accidents.
- Ensure that the reloading machine is placed on a stable and level surface.
- Keep the machine and surrounding area dry to avoid electrical hazards.
- Be aware of your surroundings and ensure that children and pets are kept at a safe distance while operating the machine.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- **Hazard Identification:** Be aware of potential hazards such as moving parts, sharp edges, and electrical components.
- **Avoid Overloading:** Do not exceed the recommended load capacity of the machine.
- **Proper Ventilation:** Ensure adequate ventilation in your workspace to minimize exposure to dust and fumes.
- **Use Only Recommended Components:** Only use Dillon-approved dies and accessories to avoid malfunctions.
- **Electrical Safety:** If using the optional electric case feeder, ensure all electrical connections are secure and protected from moisture.
- **Check for Damage:** Regularly inspect the machine for any signs of wear or damage before use.

Instructions for Installation and Usage

1. Installation:

- Unpack the Dillon XL750 and all included components.
- Follow the assembly instructions provided in the product manual to set up the machine.
- Ensure that the machine is securely mounted to a stable surface.
- If using the optional electric case feeder, follow the specific installation instructions for that component.

2. Usage:

- Before starting, familiarize yourself with the machine's controls and functions.
- Load the appropriate die set (sold separately) for the caliber you intend to reload.
- Set the desired powder charge and bullet seating depth according to your reloading specifications.
- Start the reloading process slowly to ensure everything is functioning correctly.
- Regularly check the machine during operation for any signs of malfunction or irregularities.

3. PostUse:

- After reloading, clean the machine to remove any residue or debris.
- Store the machine in a dry, safe place when not in use.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- For the reloading machine itself, consult local guidelines for disposal of electrical appliances and components.
- Ensure that any unused or excess materials, such as powder or primers, are disposed of safely and responsibly.

Contact Information for Further Support

For any questions or concerns regarding the Dillon XL750 Progressive Reloading Machine, please refer to the manufacturer's website or contact your local Dillon distributor. Always ensure that you have the latest information and updates regarding safety and usage.

By following these safety instructions, you can ensure a safe and effective reloading experience with the Dillon XL750 Progressive Reloading Machine. Thank you for prioritizing safety and responsible reloading practices.
