

XL750 / XL650 Casefeeders - Casefeed with large pistol plate

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

Electric Variable Speed Casefeeder for the XL750 & XL650 machines. With it, you simply dump in a bunch of brass and turn it on. It automatically orients the brass mouth-side up, fills the case feed tube, shuts off when the tube is full, and automatically starts as the tube gets low. Magic! Universal power supply with plugs for different regions.

Safety Instruction Guide for Dillon XL750 / XL650 Casefeeders with Large Pistol Plate

Introduction

Thank you for choosing the Dillon XL750 / XL650 Casefeeders. This electric variable speed casefeeder is designed to simplify your reloading process by automatically orienting brass, filling the case feed tube, and managing the feeding process. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always read and understand the user manual before operating the casefeeder.
- Ensure the casefeeder is used only for its intended purpose.
- Keep the casefeeder out of reach of children and vulnerable individuals.
- Regularly inspect the casefeeder for any signs of damage or wear.
- Do not attempt to repair or modify the casefeeder yourself; contact a qualified technician for repairs.
- In case of malfunction, disconnect the power supply immediately and seek assistance.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure the power supply matches the specifications required for your region.
- Do not overload the casefeeder with brass beyond its capacity.
- Avoid placing hands or any other objects in the case feed tube while the machine is operating.
- Do not use the casefeeder in wet or damp conditions to prevent electric shock.
- Always turn off the casefeeder and unplug it before cleaning or performing maintenance.
- Use only recommended brass types; avoid using damaged or deformed brass cases.
- Ensure that the casefeeder is placed on a stable and level surface to prevent tipping.

Instructions for Installation and Usage

1. Installation:

- Unpack the casefeeder and check for any visible damage.
- Place the casefeeder on a stable, flat surface.
- Connect the power supply, ensuring it matches the voltage requirements for your region.
- Ensure that the case feed tube is securely attached to the casefeeder.

2. Operating the Casefeeder:

- Turn on the casefeeder using the power switch.
- Pour brass into the hopper, ensuring it is mouthside up.
- The casefeeder will automatically orient the brass and fill the tube.
- Monitor the operation; the casefeeder will shut off when the tube is full and restart when it gets low.
- If the casefeeder does not operate as expected, turn it off immediately and check for blockages or malfunctions.

3. Cleaning and Maintenance:

- Disconnect the power supply before cleaning.
- Use a soft cloth to wipe down the exterior.

- For the interior, use a brush to remove any debris or brass shavings.
- Regularly check the case feed tube for obstructions.

Disposal Instructions

- Dispose of the casefeeder in accordance with local regulations for electronic waste.
- Remove any batteries or power sources before disposal.
- Consider recycling options available in your area to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding safety, operation, or maintenance of your Dillon XL750 / XL650 Casefeeders, please refer to the contact information provided in the product manual or visit the manufacturer's website for support resources.

By following these safety instructions, you can ensure a safe and effective experience with your Dillon XL750 / XL650 Casefeeders. Thank you for prioritizing safety!
