

## XL750 / XL650 Casefeeders - Casefeed with small pistol plate

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

Electric Variable Speed Casefeeder for the XL750 & XL650 machines. With it, you simply dump in a bunch of brass and turn it on. It automatically orients the brass mouth-side up, fills the case feed tube, shuts off when the tube is full, and automatically starts as the tube gets low. Magic! Universal power supply with plugs for different regions.

# Dillon XL750 / XL650 Casefeeders Safety Instruction Guide

## Introduction

Thank you for choosing the Dillon XL750 / XL650 Casefeeders with small pistol plate. This electric variable speed casefeeder is designed to simplify your reloading process by automatically orienting brass, filling the case feed tube, and managing operation based on tube levels. Please read this safety instruction guide carefully to ensure safe and effective use of your product.

## General Safety Guidelines

- Always follow the manufacturer's instructions and safety guidelines.
- Ensure that the casefeeder is used in a dry and wellventilated area.
- Keep the casefeeder out of reach of children and pets.
- Regularly inspect the casefeeder for any signs of damage or wear.
- Do not attempt to modify or repair the casefeeder yourself; contact a qualified technician for assistance.
- Be cautious when handling brass cases to avoid cuts or injuries.
- Do not overload the case feed tube beyond its capacity.

## Specific Safety Precautions for Use

- Ensure that the power supply is compatible with your region before plugging in the casefeeder.
- Always turn off the casefeeder and unplug it when not in use or during maintenance.
- Avoid wearing loose clothing or jewelry that could get caught in the machinery.
- Do not place your hands or any objects into the case feed tube while the machine is operating.
- Use the casefeeder only for its intended purpose; do not use it for any other applications.
- If you notice any unusual noises or malfunctions, stop using the casefeeder immediately and seek professional help.

## Instructions for Installation and Usage

### 1. Installation

- Place the casefeeder on a stable and level surface.
- Connect the universal power supply to the casefeeder and plug it into a suitable electrical outlet.
- Ensure that the power switch is in the "Off" position before proceeding.

### 2. Loading Brass

- Open the brass loading compartment.
- Dump a sufficient amount of brass cases into the compartment, ensuring they are not jammed.
- Close the compartment securely.

### 3. Operation

- Turn on the casefeeder using the power switch.
- The machine will automatically orient the brass mouthside up and fill the case feed tube.
- Monitor the case feed tube; the casefeeder will shut off when the tube is full and will restart automatically as the tube gets low.

### 4. Maintenance

- Regularly clean the casefeeder to prevent buildup of brass shavings and debris.
- Inspect the power supply and plug for any signs of damage before each use.

## **Disposal Instructions**

- Dispose of the casefeeder in accordance with local regulations regarding electronic waste.
- Remove any batteries (if applicable) and dispose of them separately in designated battery recycling bins.

## **Contact Information for Further Support**

For any safety inquiries, product support, or to report unsafe conditions, please reach out to your local distributor or the manufacturer's customer service.

Please ensure that you follow these guidelines to guarantee a safe and efficient experience with your Dillon XL750 / XL650 Casefeeders. Your safety is our priority.
