

XL750 / XL650 Casefeeders - Casefeed with small rifle plate

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

Electric Variable Speed Casefeeder for the XL750 & XL650 machines. With it, you simply dump in a bunch of brass and turn it on. It automatically orients the brass mouth-side up, fills the case feed tube, shuts off when the tube is full, and automatically starts as the tube gets low. Magic! Universal power supply with plugs for different regions.

Safety Instruction Guide for Dillon XL750 / XL650 Casefeeders with Small Rifle Plate

Introduction

Thank you for choosing the Dillon XL750 / XL650 Casefeeders with Small Rifle Plate. This electric variable speed casefeeder is designed for ease of use and efficiency in reloading. To ensure your safety and the proper functioning of the product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure safe use of the Dillon Casefeeders by following all safety instructions.
- Be aware of potential hazards associated with the use of electrical equipment.
- Regularly check for any product recalls or safety alerts through the EU Safety Gate platform.
- Always supervise children and vulnerable individuals around the product.
- Use the product only as intended and in accordance with the manufacturer's instructions.

Specific Safety Precautions for Use

• Electrical Safety:

- Ensure that the product is connected to a power supply that matches the specified voltage.
- Do not operate the casefeeder with wet hands or in damp environments.
- Unplug the casefeeder when not in use or during maintenance.

• Mechanical Safety:

- Keep hands and loose clothing away from moving parts during operation.
- Do not attempt to disassemble or modify the casefeeder.
- Ensure that the case feed tube is securely attached before operation.

• Material Safety:

- Use only approved brass cases for reloading.
- Avoid using damaged or deformed cases, as they may cause malfunctions.

• General Safety:

- Always operate the casefeeder in a wellventilated area.
- Keep the work area clean and free from obstructions.
- If you notice any unusual sounds, smells, or behavior during operation, stop using the product immediately and consult the manufacturer.

Instructions for Installation and Usage

1. Installation:

- Place the Dillon Casefeeder on a stable and level surface.
- Ensure that the power supply is turned off before connecting the casefeeder.
- Connect the power supply to the casefeeder, ensuring a secure fit.
- If necessary, refer to the manufacturer's manual for specific installation instructions.

2. Operation:

- Dump the brass cases into the hopper of the casefeeder.
- Turn on the casefeeder using the power switch.
- Monitor the case feed tube to ensure it is filling properly.
- The casefeeder will automatically orient the brass and fill the tube. It will shut off when the tube is full and restart as the tube gets low.
- If the casefeeder stops operating unexpectedly, check for blockages or malfunctions before restarting.

3. Maintenance:

- Regularly clean the casefeeder to prevent buildup of debris.
- Inspect all components for wear and replace any damaged parts as necessary.
- Follow the manufacturer's guidelines for maintenance schedules and procedures.

Disposal Instructions

- Dispose of the casefeeder in accordance with local regulations for electronic waste.
- Remove any batteries or hazardous materials before disposal, if applicable.
- Do not dispose of the casefeeder in general household waste.

Contact Information for Further Support

For any inquiries or concerns regarding the Dillon XL750 / XL650 Casefeeders, please refer to the manufacturer's official website or customer service for assistance.

By following these safety instructions, you can ensure a safe and efficient reloading experience with your Dillon XL750 / XL650 Casefeeders. Thank you for your attention to safety!
