Dillon XL750 Priming System Safety Instructions

Introduction

Thank you for choosing the Dillon XL750 Priming System. This guide provides important safety instructions, installation procedures, and usage tips to ensure your product is used safely and effectively. Please read this manual carefully before use.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as specified in this manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the priming system for any signs of wear or damage before each use.
- Do not modify the priming system in any way. Unauthorized modifications may compromise safety.
- If you notice any unusual sounds or malfunctions during use, stop immediately and consult the troubleshooting section of this manual or seek professional assistance.
- Always wear appropriate safety gear, including eye protection, when using the reloading press.

Specific Safety Precautions for Use

- Always ensure that the reloading press is securely mounted before operation.
- Avoid wearing loose clothing or jewelry that could get caught in moving parts.
- Keep hands and other body parts away from moving components during operation.
- Do not attempt to operate the priming system if you are tired, under the influence of drugs or alcohol, or distracted.
- Use only Dillon-approved accessories and components with the XL750 Priming System to maintain safety and performance.

Instructions for Installation and Usage

Installation

1. **Unpack the Priming System:** Carefully remove the priming system from its packaging. Check for any visible damage or missing parts.
2. **Locate the Mounting Area:** Identify the appropriate area on your Dillon XL750 reloading press where the priming system will be installed, typically between the frame and the handle.
3. **Secure the Priming System:** Follow these steps to attach the priming system:
 - Align the priming system with the designated mounting points.
 - Use the provided screws and tools to securely fasten the priming system to the reloading press.
 - Ensure all screws are tightened but do not overtighten as this may cause damage.
4. **Perform a Safety Check:** After installation, doublecheck that all components are securely attached and that there are no obstructions in the area of operation.

Usage

1. **Loading Primers:**
 - Carefully load primers into the priming system according to the manufacturer's instructions.
 - Make sure to use the correct type of primers specified for your reloading needs.
2. **Operating the Priming System:**
 - Engage the handle of the reloading press slowly and steadily to activate the priming system.
 - Monitor the operation closely for any signs of malfunction or abnormal behavior.
3. **Clearing Jams:**
 - If a jam occurs, stop operation immediately.
 - Refer to the troubleshooting section in this manual for guidance on safely clearing jams without risking injury.

Disposal Instructions

- Dispose of the priming system and any associated materials in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management authorities for proper disposal methods.
- Recycle components whenever possible to minimize environmental impact.

Contact Information for Further Support

For any inquiries or concerns regarding the Dillon XL750 Priming System, please refer to the manufacturer's website or customer support resources for assistance.
