Dillon XL750 / XL650 / RL550 Accessories Safety Instruction Guide

Introduction

Thank you for choosing the Dillon Precision Powder Measure for your RL 550 Series and XL 750/650 Reloading Machines. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully to understand the safety guidelines and precautions necessary for the proper use of this equipment.

General Safety Guidelines

- Always ensure that the Powder Measure is used in accordance with the manufacturer's instructions.
- Keep the Powder Measure out of reach of children and vulnerable individuals.
- Regularly inspect the Powder Measure for any signs of damage or wear before use.
- Use the Powder Measure only for its intended purpose as described in the product documentation.
- If you notice any malfunction or unusual behavior, cease use immediately and contact support.
- Be aware of your surroundings and ensure that your workspace is clear of hazards while using the Powder Measure.
- Always wear appropriate safety gear, including eye protection, when operating reloading equipment.

Specific Safety Precautions for Use

- Ensure that the Powder Measure is securely mounted to the reloading press before use.
- Do not exceed the recommended load limits specified in the product documentation.
- Avoid overfilling the powder hopper to prevent spills and potential hazards.
- Use only the recommended types of powder as specified by the manufacturer.
- Never leave the Powder Measure unattended while it is in use.
- Keep the area around the Powder Measure clean and free from any flammable materials.
- Follow all local laws and regulations regarding the storage and handling of reloading materials.

Instructions for Installation and Usage

Installation

1. Mounting the Powder Measure:

- Ensure that your reloading press is turned off and unplugged.
- Use the provided mounting hardware to securely attach the Powder Measure to the reloading press.
- Check that the Powder Measure is level and stable before proceeding.

2. Connecting the Powder Bars:

- Select the appropriate powder bar for the type of load you are using (small or large).
- Follow the instructions in the product manual to properly connect the powder bar to the Powder Measure.

3. Setting Up the Powder Hopper:

- Carefully fill the powder hopper with the appropriate type of powder.
- Ensure that the hopper lid is securely closed before operating the Powder Measure.

Usage

1. Adjusting the Powder Measure:

- Refer to the product manual for instructions on adjusting the measure to your desired grain weight.
- Make small adjustments and test the output to ensure accuracy.

2. Measuring Powder:

- Place a reloading case under the Powder Measure spout.
- Activate the Powder Measure to dispense the powder into the case.
- Check the weight of the dispensed powder using a scale to confirm accuracy.

3. Cleaning and Maintenance:

- After use, clean the Powder Measure according to the manufacturer's instructions.
- Regularly inspect all components for wear and replace as necessary.

Disposal Instructions

- Dispose of any unused or expired powder in accordance with local regulations.
- Do not dispose of the Powder Measure in regular household waste. Follow local electronic waste disposal guidelines.
- Ensure that all components are properly cleaned before disposal to prevent contamination.

Contact Information for Further Support

For any inquiries or further assistance regarding the Dillon Precision Powder Measure, please refer to the manufacturer's website or contact their support team. Ensure that you have your product information available for reference.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Dillon Precision Powder Measure. Thank you for your attention to these important guidelines.
