Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. This guide provides important safety information, installation instructions, and usage guidelines to ensure your safe and effective use of this product. Please read this document carefully before using the kit.

General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines.
- Keep this product out of reach of children and vulnerable individuals.
- Ensure that your workspace is clean and organized to prevent accidents.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Inspect the kit and all components for damage before use. Do not use damaged parts.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the Dillon RL550 / RL450 / RL300 / AT500 / BL550 machine is properly set up and functioning before installing the conversion kit.
- Only use the conversion kit with compatible Dillon reloading machines.
- Do not exceed the recommended specifications for the caliber being reloaded.
- Always verify that the shellplate and powder funnel are correctly installed before use.
- Avoid distractions while operating the reloading machine.
- Do not attempt to modify or alter any components of the conversion kit.
- Be aware of the potential hazards associated with reloading ammunition, including the handling of powders and primers.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and components, including the Dillon RL550 / RL450 / RL300 / AT500 / BL550 machine, the conversion kit, and safety equipment.
- Ensure that your workspace is wellventilated and free from flammable materials.

2. Installation

- Power off the Dillon machine and unplug it from the electrical outlet.
- Remove any existing shellplate and powder funnel from the machine.
- Install the new shellplate included in the conversion kit by aligning it with the mounting points on the machine and securing it in place.
- Insert the powder funnel into the appropriate position, ensuring it is firmly seated.
- Place the locator buttons in their designated spots to assist with proper alignment during reloading.

3. Usage

- After installation, plug in the Dillon machine and power it on.

- Perform a function check to ensure all components are operating correctly.
- Begin the reloading process by following the specific guidelines for the caliber you are using (7 mm TCU).
- Monitor the reloading process closely to ensure safe operation and prevent malfunctions.

4. PostUse

- Power off the machine and unplug it after use.
- Clean the machine and conversion kit components to maintain their condition and performance.
- Store the conversion kit in a safe location away from children and unauthorized users.

Disposal Instructions

- Dispose of any unused or expired components of the conversion kit in accordance with local regulations.
- Do not dispose of hazardous materials, such as powders and primers, in regular waste. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any questions or concerns regarding the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit, please refer to the manufacturer's website or customer service for assistance.
