Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. This kit is designed to enhance your reloading experience by providing the necessary components for converting your machine to accommodate various rifle calibers, including 270 Winchester, 280 Remington, and 7 mm Express. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always read and understand the product manual before use.
- Keep the workspace clean and organized to prevent accidents.
- Use protective eyewear and gloves when handling reloading components.
- Ensure the machine is turned off and unplugged during installation or maintenance.
- Store the kit and all related components out of reach of children and pets.
- Regularly inspect the kit for any signs of wear or damage before each use.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Only use the conversion kit with compatible Dillon machines: RL300, RL450, RL550, AT500, and BL550.
- Ensure that the shellplate, powder funnel, and locator buttons are properly installed before use.
- Never exceed the recommended load data provided by the bullet and powder manufacturers.
- Always doublecheck powder charges to avoid overloading.
- Do not leave the reloading process unattended.
- If any component appears damaged or malfunctions during use, stop immediately and inspect the kit.
- Follow all local laws and regulations regarding ammunition reloading.

Instructions for Installation and Usage

Installation

1. Preparation:

- Ensure the reloading machine is turned off and unplugged.
- Gather all necessary tools and components for installation.

2. Remove Existing Components:

- Carefully remove the existing shellplate from the machine.
- Take out the powder funnel and locator buttons if applicable.

3. Install Shellplate:

- Select the appropriate shellplate for the caliber you are converting to.
- Align the shellplate with the machine and secure it in place according to the machine's manual.

4. Install Powder Funnel:

- Choose the correct powder funnel that corresponds to the shellplate.
- Insert the powder funnel into the designated area and ensure it is firmly in place.

5. **Install Locator Buttons:**

- Place the locator buttons in their respective positions on the shellplate.
- Ensure that they are properly seated and secure.

Usage

1. **Setup:**

- Plug in the reloading machine and turn it on.
- Set up your workspace with all necessary materials, including brass cases, powder, and projectiles.

2. **Reloading Process:**

- Follow the reloading steps as outlined in your machine's manual.
- Pay close attention to the powder charge and bullet seating depth.

3. **PostReloading:**

- Inspect completed rounds for any defects.
- Store reloaded ammunition in a cool, dry place.

Disposal Instructions

- Dispose of any unused or expired components in accordance with local regulations.
- Do not throw away hazardous materials in regular trash. Instead, contact local waste management for proper disposal methods.
- Recycle packaging materials whenever possible.

Contact Information for Further Support

For any inquiries related to safety, product information, or support, please reach out to the designated contact point as indicated in your product documentation. Ensure all safety concerns are addressed promptly.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with your Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit. Thank you for your attention to safety and for choosing Dillon products.
