Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit Safety Instruction Guide

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. This product is designed to enhance your reloading experience by providing the necessary components for converting your Dillon reloading machine to accommodate specific rifle calibers. It is important to follow safety guidelines to ensure safe and effective use of this product.

General Safety Guidelines

- Ensure that you read and understand all instructions before using this product.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading components.
- Keep the workspace clean and free from clutter to avoid accidents.
- Store all components in a safe place, out of reach of children and pets.
- Regularly inspect your reloading equipment and components for wear and damage.
- Only use this conversion kit with compatible Dillon reloading machines: RL300, RL450, RL550 series, AT500, and BL550.
- Follow applicable local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- Ensure that the machine is unplugged or turned off before installing or changing any components.
- Never exceed the recommended load limits for your reloading machine.
- Be aware of the specific characteristics and handling requirements of the calibers you are reloading (e.g., 338 Winchester Magnum and 340 Weatherby Magnum).
- Keep all tools and reloading components organized and labeled to prevent confusion.
- Do not attempt to modify or alter the components of the conversion kit.
- Always use the correct shellplate and powder funnel as specified in the kit for your chosen caliber.
- In case of malfunction or unusual behavior of the reloading machine, stop using it immediately and consult the manual or a qualified technician.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components, including the conversion kit, reloading machine, and any additional tools specified in the manual.
- Ensure that your workspace is welllit and free from distractions.

2. Installation:

- Unplug the reloading machine to ensure safety during installation.
- Remove any existing shellplate and components from the machine.
- Install the new shellplate included in the conversion kit by aligning it with the machine's mounting points and securing it as per the machine's manual.
- Insert the powder funnel into the shellplate, ensuring it fits snugly.
- Attach the locator buttons as specified in the installation guide.

3. Usage:

- Once installed, plug in the reloading machine and power it on.
- Follow the reloading process as outlined in the machine's manual, ensuring you use the correct settings for the 338 Winchester Magnum or 340 Weatherby Magnum.
- Monitor the reloading process closely, checking for any irregularities or malfunctions.

4. PostReloading:

- After reloading, clean the components and workspace thoroughly.
- Store any unused components and the conversion kit in a safe location.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Follow proper hazardous waste disposal guidelines for any materials that may be considered hazardous.

Contact Information for Further Support

For any questions or concerns regarding the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit, or for assistance with safety inquiries, please refer to the official Dillon customer support channels.

By adhering to these safety guidelines and instructions, you will ensure a safe and enjoyable reloading experience with your Dillon conversion kit. Thank you for your attention to safety!
