Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. This guide provides essential safety instructions to ensure the safe and effective use of your reloading equipment. Please read and follow these instructions carefully to prevent accidents and ensure proper operation.

General Safety Guidelines

- Ensure that all safety precautions are followed when using the Dillon Caliber Conversion Kit.
- Always keep the workspace clean and free of clutter to avoid accidents.
- Use protective eyewear and gloves when handling reloading components.
- Keep the kit and all reloading materials out of reach of children and unauthorized users.
- Regularly inspect the kit for any signs of wear or damage before use.
- Follow local laws and regulations regarding reloading activities.

Specific Safety Precautions for Use

- Only use the Dillon Caliber Conversion Kit with compatible Dillon machines: RL300, RL450, RL550, AT500, and BL550.
- Ensure that the machine is turned off and unplugged before installing or changing components.
- Avoid using damaged or worn parts; replace them immediately to prevent malfunctions.
- Do not attempt to modify the kit or machine in any way that is not recommended by the manufacturer.
- Always doublecheck the powder funnel and shellplate to ensure they are properly installed before starting the reloading process.
- Handle all reloading materials, including powder and primers, with care and in accordance with manufacturer guidelines.

Instructions for Installation and Usage

1. Installation of the Caliber Conversion Kit:

- Ensure the reloading machine is turned off and unplugged.
- Remove the existing shellplate from the machine.
- Install the new shellplate included in the conversion kit by aligning it with the machine's mounting points.
- Secure the shellplate in place according to the machine's user manual.
- Install the powder funnel by inserting it into the appropriate position on the shellplate.
- Attach the locator buttons as needed to ensure proper alignment during the reloading process.

2. Using the Caliber Conversion Kit:

- Prepare your workspace by laying out all necessary tools and materials.
- Load the required components into the machine according to the specifications for the caliber being reloaded.
- Follow the reloading process as outlined in the Dillon machine's user manual.
- Regularly check the operation of the machine during use to ensure everything is functioning correctly.
- After reloading, clean the machine and kit components to maintain optimal performance.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not throw away the kit components in regular trash; check for recycling options or hazardous waste disposal facilities.
- Follow environmental guidelines for the disposal of any materials that may be harmful to the environment.

Contact Information for Further Support

For any questions or concerns regarding the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and efficient reloading experience with your Dillon Caliber Conversion Kit. Always prioritize safety and compliance with local laws and regulations. Happy reloading!
