Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers, specifically the 358 Winchester model. This guide provides essential safety information and instructions to ensure proper use and handling of the product. Please read this manual thoroughly before installation and use.

General Safety Guidelines

- Ensure that the conversion kit is compatible with your specific Dillon reloading machine model (RL300, RL450, RL550, AT500, or BL550).
- Use the product only for its intended purpose, which is to convert your Dillon reloading machine for reloading 358 Winchester cartridges.
- Always follow the manufacturer's guidelines for the safe operation of your reloading machine.
- Keep the conversion kit and all reloading components out of reach of children and vulnerable individuals.
- Regularly inspect the conversion kit for wear and damage. Do not use damaged components.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Be aware of your surroundings and ensure that you are in a safe environment when using the reloading machine.

Specific Safety Precautions for Use

- Before starting the reloading process, ensure that the machine is unplugged or disconnected from the power source.
- Do not exceed the recommended load limits for the Dillon reloading machine.
- Use only the specified shellplate and powder funnel included in this kit.
- Avoid using any components that are not designed for use with the Dillon RL550 series.
- Follow proper procedures for handling and storing reloading components, including powder and primers.
- Do not eat, drink, or smoke in the reloading area to avoid contamination.
- In case of any malfunction or unusual operation, stop using the machine immediately and consult the user manual or a qualified technician.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading machine is powered off and unplugged.
- Remove the existing shellplate and powder funnel from your Dillon machine.
- Install the new shellplate included in the conversion kit by aligning it with the indexing pin and securing it in place.
- Insert the new powder funnel into the machine, ensuring it fits snugly.
- Place locator buttons in the appropriate positions to ensure proper alignment during reloading.

2. Usage:

- Set up your Dillon reloading machine according to the user manual instructions.
- Load the appropriate components (brass cases, primers, powder, and bullets) for reloading 358 Winchester cartridges.
- Follow the reloading process stepbystep as outlined in your Dillon machine's user manual.

- Monitor the reloading process closely to ensure everything operates smoothly.
- After reloading, inspect each cartridge for proper assembly and safety.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away reloading components in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods for hazardous materials.

Contact Information for Further Support

For any inquiries related to safety, usage, or maintenance of the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit, please refer to the manufacturer's website or customer service for assistance.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. Always prioritize safety and compliance with local laws and regulations when reloading ammunition. Thank you for choosing Dillon products.
