Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers, specifically designed for the 2535 Winchester cartridge. This guide provides essential safety instructions to ensure the safe and effective use of your conversion kit. Please read this manual carefully before installation and use.

General Safety Guidelines

- Always follow the manufacturer's instructions when using the conversion kit.
- Ensure that the workspace is clean, dry, and welllit to avoid accidents.
- Keep the conversion kit and all components out of reach of children and vulnerable individuals.
- Wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Regularly inspect the conversion kit for any signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Handle all components with care to avoid injury.
- Ensure that the shellplate, powder funnel, and locator buttons are securely attached before use.
- Do not exceed the recommended load limits specified in the reloading manual.
- Use only compatible components with this conversion kit to prevent malfunctions.
- Always doublecheck that the correct caliber is set up before reloading.
- Avoid distractions while reloading, and do not attempt to reload in a hurry.
- Store all reloading materials, including powders and primers, in a safe and secure location.

Instructions for Installation and Usage

Installation

1. Preparation:

- Gather all necessary tools and components for installation.
- Ensure that the reloading press is turned off and unplugged if applicable.

2. Remove Existing Components:

- Carefully remove any existing shellplate and powder funnel from the reloading press.

3. Install the Shellplate:

- Select the appropriate shellplate for the 2535 Winchester cartridge.
- Align the shellplate with the press and securely attach it according to the manufacturer's instructions.

4. Install the Powder Funnel:

- Choose the correct powder funnel that fits the shellplate.
- Insert the powder funnel into the designated position on the press.

5. Attach Locator Buttons:

- Install the locator buttons as per the instructions, ensuring they are securely in place.

Usage

1. Setup:

- Confirm that the reloading press is set up correctly for the 2535 Winchester caliber.
- Check that all components are properly installed and secure.

2. Reloading Process:

- Follow the reloading manual for the specific steps to reload the 2535 Winchester cartridge.
- Monitor the process closely and ensure that no obstructions are present.

3. PostReloading:

- After reloading, clean the workspace and store the conversion kit and all components safely.
- Regularly check for wear and tear on the conversion kit and replace components as necessary.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not discard reloading materials, such as powders and primers, in regular waste. Follow local hazardous waste disposal guidelines.
- Ensure that all components are disposed of in a manner that prevents harm to the environment and public safety.

Contact Information for Further Support

For further support and inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with your product packaging.

By adhering to these safety instructions, you can ensure a safe and efficient reloading experience with your Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit. Thank you for your attention to safety.
