Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers 6.5 Japanese Arisaka Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers, specifically designed for the 6.5 Japanese Arisaka. This safety instruction guide is intended to ensure the safe and effective use of your conversion kit. Please read and follow these instructions carefully to minimize risks and enhance your reloading experience.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment and components.
- Keep your workspace clean and organized to avoid accidents.
- Store all components, including powders and primers, in a secure location away from children and unauthorized individuals.
- Never exceed recommended load data provided by reliable sources.
- Always ensure that your reloading press is properly maintained and in good working condition.
- Familiarize yourself with the specific features and operation of your Dillon reloading press model before use.

Specific Safety Precautions for Use

- Ensure that you are using the correct conversion kit for your specific Dillon press model (RL300, RL450, RL550, AT500, or BL550).
- Inspect all components of the conversion kit before use for any signs of damage or wear.
- Use only compatible components (shellplates, powder funnels, and locator buttons) provided in this kit.
- Do not attempt to modify any part of the conversion kit or reloading press.
- Keep your hands and other body parts clear of moving parts during operation.
- Do not leave the reloading press unattended while in operation.
- If you experience any malfunctions or unusual noises during operation, stop immediately and investigate the issue before proceeding.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure that your Dillon reloading press is turned off and disconnected from any power source.
2. **Remove Existing Components:** Take off any existing shellplate, powder funnel, and locator buttons from your press.
3. **Install Shellplate:**
 - Align the new shellplate for the 6.5 Japanese Arisaka with the press.
 - Secure it in place according to the manufacturer's guidelines.
4. **Install Powder Funnel:**
 - Insert the powder funnel into the designated area of the press.
 - Ensure it fits snugly and does not wobble.
5. **Install Locator Buttons:**
 - Place the locator buttons in their respective positions.
 - Confirm they are firmly seated and properly aligned.

Usage

- Before starting, doublecheck that all components are correctly installed and securely fastened.
- Follow standard reloading practices, including measuring powder charges and verifying bullet seating depth.
- Monitor the operation closely, ensuring that the press cycles smoothly and without obstruction.
- Clean the press and conversion kit components after use to prevent residue buildup and maintain functionality.

Disposal Instructions

- Dispose of any unused or expired components in accordance with local regulations.
- Do not throw away any hazardous materials, such as powders or primers, in regular trash.
- Contact your local waste management facility for guidance on proper disposal of hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit, please refer to the manufacturer's website or customer service for assistance. It is important to have access to support for any safety inquiries or productrelated issues.

By following these safety instructions, you can help ensure a safe and effective reloading experience with your Dillon conversion kit. Always prioritize safety and adhere to local laws and regulations regarding reloading practices.
