Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers Safety Instructions

Introduction

Thank you for purchasing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. This guide provides important safety instructions and guidelines to ensure the safe use of your product. Please read this document carefully before installation and usage.

General Safety Guidelines

- Always ensure that your reloading equipment is in good working condition before use.
- Keep the work area clean and organized to prevent accidents.
- Store the conversion kit and all reloading components out of reach of children and unauthorized users.
- Use protective eyewear and gloves when handling reloading components.
- Be aware of the specific hazards associated with the materials you are working with, including powders and primers.
- Follow all local laws and regulations regarding the storage and handling of ammunition components.
- Regularly check for product recalls or safety alerts related to your equipment.

Specific Safety Precautions for Use

- Ensure that the Dillon conversion kit is compatible with your reloading machine model before installation.
- Do not attempt to modify or alter the conversion kit in any way.
- Always use the correct shellplate and powder funnel for the specific caliber being reloaded.
- Avoid overcharging or undercharging powder loads as this can lead to dangerous malfunctions.
- Never leave the reloading process unattended.
- If you notice any unusual sounds or malfunctions during operation, stop using the machine immediately and inspect it for issues.
- Dispose of any defective components safely and in accordance with local regulations.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components.
- Ensure that your reloading machine is turned off and unplugged.

2. Installation:

- Remove any existing shellplate from your reloading machine.
- Install the new shellplate included in the conversion kit, ensuring it is securely fastened.
- Attach the powder funnel to the shellplate as per the manufacturer's instructions.
- Insert the locator buttons into their respective positions to ensure proper alignment.

3. Usage:

- Set up your reloading machine according to the specific caliber you are using.
- Carefully measure and pour the appropriate amount of powder into the powder funnel.
- Insert the cartridge case into the shellplate and follow your reloading procedure.
- Regularly check the alignment and operation of the machine during the reloading process.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local hazardous waste regulations.
- Do not dispose of reloading components in regular household waste.
- Contact local authorities for guidance on safe disposal methods for hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit, please consult the manufacturer or your retailer for assistance.

By following these safety instructions, you can help ensure a safe and effective reloading experience with your Dillon conversion kit. Thank you for prioritizing safety while enjoying your reloading hobby.
