Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document thoroughly before using the kit.

General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines for safe operation.
- Ensure that the workspace is clean, organized, and free from distractions.
- Store the kit in a dry, cool place away from direct sunlight and moisture.
- Keep the kit out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment.
- Regularly inspect all components for wear and damage before use.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the machine is turned off and unplugged before installing or replacing any components.
- Verify that the correct shellplate and powder funnel are used for the specific caliber.
- Do not exceed the recommended load limits for the components in the kit.
- Avoid using damaged or worn parts, as they can lead to malfunctions or accidents.
- Always check for proper alignment of all components before operation.
- Be cautious when handling powder and primers; store them in proper containers and away from heat sources.
- Follow all local laws and regulations regarding the reloading of ammunition.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the reloading machine is clean and free from any debris.
- Gather all necessary tools and components before starting the installation.

2. Installation:

- Turn off and unplug the reloading machine.
- Remove the existing shellplate and powder funnel from the machine.
- Install the new shellplate by aligning it with the machine's mounting points and securing it in place.
- Attach the powder funnel to the shellplate, ensuring it is properly seated.

3. Setup:

- Insert the locator buttons into their designated positions on the shellplate.
- Check that all components are securely attached and properly aligned.

4. Usage:

- Load the appropriate caliber ammunition components into the machine.
- Follow the reloading process as outlined in the Dillon reloading machine manual.
- Monitor the reloading process closely for any signs of malfunction or irregularities.

5. PostUsage:

- After reloading, turn off and unplug the machine.
- Clean the shellplate and powder funnel to remove any residue.
- Store the kit and all components in a safe location.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Check with local authorities for proper disposal methods for hazardous materials.

Contact Information for Further Support

For any safety inquiries or further assistance, please reach out to your local Dillon representative or authorized dealer. Always ensure that you have the latest safety updates and product information.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit. Thank you for prioritizing safety in your reloading practices.
