Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers User Manual

Introduction

Thank you for choosing the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit for Rifle Calibers. This kit is designed to enhance your reloading experience by providing the necessary components for converting your Dillon reloading press to accommodate the 7 mm Remington Ultra Magnum cartridge. Please read this manual carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the reloading press is used in a wellventilated area, away from flammable materials.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading components.
- Keep the workspace clean and organized to avoid accidents.
- Store all reloading components in a secure location, out of reach of children and pets.
- Regularly inspect the conversion kit for wear or damage before each use.
- Do not exceed the recommended load limits for the reloading press.

Specific Safety Precautions for Use

- Always follow the manufacturer's instructions for your specific Dillon reloading press model.
- Use only compatible cartridges with this conversion kit; ensure that the cartridge is properly seated in the shellplate.
- Avoid distractions while reloading; focus on the task at hand to prevent mistakes.
- Never attempt to modify or alter the components of the conversion kit.
- If you notice any unusual behavior from the reloading press during use, stop immediately and investigate the issue.

Instructions for Installation and Usage

Installation

1. **Prepare Your Workspace:** Ensure your workspace is clean, dry, and free from any obstructions.
2. **Gather Required Tools:** You may need basic tools such as a wrench and screwdriver for installation.
3. **Remove Existing Components:** If applicable, remove the existing shellplate and powder funnel from your Dillon reloading press.
4. **Install the Shellplate:**
 - Align the new shellplate with the reloading press.
 - Secure the shellplate in place using the appropriate fasteners.
5. **Install the Powder Funnel:**
 - Insert the powder funnel into the designated location on the shellplate.
 - Ensure it fits snugly and is properly aligned.
6. **Attach Locator Buttons:**
 - Position the locator buttons as specified in the installation guide.
 - Ensure they are firmly attached to prevent movement during operation.

Usage

1. **Setup:** Ensure that all components are correctly installed and secured before starting the reloading process.

2. **Check Components:** Verify that the shellplate, powder funnel, and locator buttons are free from obstructions and correctly positioned.
3. **Reloading Process:**
 - Follow the standard reloading procedures for your Dillon press.
 - Monitor the process closely to ensure that each cartridge is loaded correctly.
4. **PostReloading:** After reloading, clean the work area and properly store any unused components.

Disposal Instructions

When disposing of this product, please follow local regulations regarding the disposal of reloading components and materials. Ensure that any hazardous materials are handled in accordance with safety guidelines to prevent environmental harm.

Contact Information for Further Support

For assistance or inquiries regarding the Dillon RL550 / RL450 / RL300 / AT500 / BL550 Caliber Conversion Kit, please refer to the manufacturer's official website or customer service for further support.

By following these guidelines and instructions, you can ensure a safe and effective reloading experience with your Dillon conversion kit. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
