MDT's Scope Base Picatinny Rails are a precise and reliable solution when it comes to mounting a scope on your bolt action rifle.

MDT's Scope Base Picatinny Rails are designed to make the mounting of your optics easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The underside of the rails are profiled to allow the rail to be mounted flush on the receiver and to match the geometry of the ejection port. These rails are designed with a 30 MOA incline providing additional elevation adjustment from your scope*. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

Safety Instruction Guide for MDT Rails Savage A22

Introduction

Thank you for choosing the MDT Rails Savage A22. This product is designed to provide a reliable and precise solution for mounting a scope on your Savage A22 bolt action rifle. To ensure safe usage and optimal performance, please read and follow the safety instructions provided in this guide.

General Safety Guidelines

- Ensure that the product is installed and used in accordance with the manufacturer's instructions.
- Always inspect the product before use for any signs of damage or wear.
- Keep this product out of reach of children and unauthorized users.
- Use this product only for its intended purpose as described in this guide.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about any recalls or safety alerts associated with this product through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when handling firearms and related accessories.
- Ensure that the firearm is unloaded before installing or adjusting the rail.
- Do not exceed the manufacturer's specified weight limits for mounted optics.
- Avoid using the product in extreme weather conditions that may affect its performance.
- Regularly check the tightness of the screws and fittings to ensure stability during use.
- If you experience any issues with the product, discontinue use immediately and consult a qualified professional.

Instructions for Installation and Usage

Installation Instructions

1. **Prepare the Firearm:** Ensure that your Savage A22 is unloaded and pointed in a safe direction.
2. **Gather Tools:** You will need a torque wrench and the appropriate screwdrivers for installation.
3. **Align the Rail:** Position the MDT rail on the receiver, ensuring that the profile matches the ejection port.
4. **Insert Screws:** Using the provided screws, attach the rail to the receiver. Do not overtighten; refer to the torque specifications provided by the manufacturer.
5. **Check Alignment:** Verify that the rail is flush and properly aligned before proceeding.
6. **Install Optics:** Mount your scope onto the rail according to the scope manufacturer's instructions.

Usage Instructions

- Once installed, regularly check the rail and scope for secure attachment.
- Adjust the scope settings as needed for optimal accuracy.
- Practice safe handling of your firearm at all times.

Disposal Instructions

- Dispose of the product in accordance with local regulations for aluminum materials.
- Do not dispose of the product in regular household waste.
- Consider recycling options available in your area.

Contact Information for Further Support

For any inquiries or further assistance regarding the MDT Rails Savage A22, please refer to the manufacturer's customer support resources. Ensure you have your product details handy for a smoother support experience.

By following these guidelines, you can ensure a safe and effective experience with your MDT Rails Savage A22. Thank you for your attention to these important safety instructions.
