

Rails - Savage A22 - MDT - Rails - 40 MOA - Savage A22

[Rifle Parts](#) > [Forend & Handguard Parts](#) > [Handguard & Rail Accessories](#) > [Accessory Rails](#)

MDT's Scope Base Picatinny Rails are a precise and reliable solution when it comes to mounting a scope on your bolt action rifle.

MDT's Scope Base Picatinny Rails are designed to make the mounting of your optics easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The underside of the rails are profiled to allow the rail to be mounted flush on the receiver and to match the geometry of the ejection port. These rails are designed with a 30 MOA incline providing additional elevation adjustment from your scope*. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

MDT Rails Savage A22 Safety Instruction Guide

Introduction

Thank you for choosing the MDT Rails Savage A22. This product is designed to enhance your shooting experience by providing a reliable solution for mounting your scope. This guide contains essential safety instructions and information to ensure the safe use and installation of your MDT Scope Base Picatinny Rails.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions when installing and using the product.
- Regularly inspect the product for any signs of wear or damage before each use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always check that the rail is securely mounted before using your rifle.
- Avoid using the rail if it shows signs of damage or if it has been involved in an accident.
- Ensure that the scope is properly aligned and securely fastened to prevent it from loosening during use.
- Do not exceed the weight limit specified for the rail to avoid potential failure.
- Be cautious when handling firearms and always follow standard firearm safety practices.

Instructions for Installation and Usage

Installation Instructions

1. Preparation:

- Gather all necessary tools, including a torque wrench and screwdrivers.
- Ensure that your rifle is unloaded and safe to handle.

2. Mounting the Rail:

- Align the MDT Scope Base Picatinny Rail with the receiver of your Savage A22.
- Use the provided screws to attach the rail to the receiver.
- Ensure that the rail is mounted flush against the receiver and matches the geometry of the ejection port.
- Tighten the screws to the manufacturer's recommended torque specifications.

3. Attaching the Scope:

- Place your scope onto the mounted rail.
- Adjust the scope to your preferred position for optimal viewing.
- Securely fasten the scope rings or mounts according to the manufacturer's instructions.

Usage Instructions

- Always ensure the rifle is pointed in a safe direction when handling.
- Conduct a function check to ensure that the scope and rail are properly installed and functioning.
- If you experience any issues while using the product, cease use immediately and inspect for problems.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, consider recycling it if possible.

Contact Information for Further Support

For any questions or concerns regarding the MDT Rails Savage A22, please refer to the manufacturer's website or customer service resources. It is important to have access to support for any safety inquiries.

Thank you for taking the time to read this safety instruction guide. Your safety and satisfaction are our top priorities. Enjoy your shooting experience with the MDT Rails Savage A22!
