

MEPRO TRU-DOT FIXED PISTOL SIGHT-BROWNING HI POWER MARK III - MEPRO TRU-DOT FIXED PISTOL SIGHT-BROWNING HI-POWER MARK III-G-FRONT ONLY

Built upon decades of military innovation and service, Meprolight's high-grade tritium has remained the benchmark by which tritium illuminance has been measured. The Mepro Tru-Dot fixed sights are the standard by which all tritium pistol sights are measured. Meprolight utilizes a specially formulated manufacturing process giving you an industry-first brightness from broad daylight to no light and everything in-between. They have been used and trusted for decades. The trust earned has made these tritium day/night sights the top choice by OEM manufacturers.

The Mepro Tru-Dot provide the most reliable illumination day or night. Mepro Tru-Dot fixed sights feature an extremely bright 3 bright white dot for fast accurate target acquisition in the daytime. Both rear and front tritium sources will appear green during lowlight and no light scenarios providing the upmost confidence for you to make hits when it counts. Select SKUs may be available with yellow or orange front tritium in lieu of the green.

Premium Swiss-made tritium vials in the front and rear sights allow for low light and no light conditions. The square notch on the rear sight naturally directs your eyes to the top of the front sight. Mepro Tru-Dot sight sets are engineered as a direct upgrade to your factory sights and are designed to fit all holsters.

The Mepro Tru-Dot family is drop-proof, shock-proof, and built for endless abuse or anything you can throw at it. Their ultralight steel construction features a snag-free design making it easy to quickly draw your weapon. Knowing this gives confidence in any environment you may find yourself. L

Lastly, our Mepro Tru-Dot sights require no batteries. They are always on, always ready, 24 hours a day, 7 days a week, 365 days a year. Tritium illuminance is guaranteed for 12 years. They are maintenance-free and can be installed directly with no modifications to your factory slide.

MEPRO TRUDOT FIXED PISTOL SIGHT Safety Instructions

Introduction

Thank you for choosing the Mepro TruDot Fixed Pistol Sight for your Browning HiPower Mark III. This guide provides essential safety instructions to ensure the proper and safe use of the product. Please read this manual carefully before installation and usage.

General Safety Guidelines

- Always handle firearms and sights with caution. Treat every firearm as if it is loaded.
- Ensure that your firearm is unloaded before installing or adjusting the sight.
- Keep the sight and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the sight for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearms and firearm accessories.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- The Mepro TruDot sights are designed for adult use only. Keep out of reach of children.
- Avoid exposing the sight to extreme temperatures or harsh environments that may affect its performance.
- Ensure that the tritium vials are not damaged. If you suspect damage, do not use the sight and contact a professional.
- Be aware that the brightness of the tritium may diminish over time. The illuminance is guaranteed for 12 years.
- Always ensure that your firearm is properly secured in a holster when not in use to prevent accidental discharge.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure your firearm is unloaded and the work area is clean.
2. **Remove the Factory Sights:** Carefully remove the existing sights from your Browning HiPower Mark III using appropriate tools.
3. **Install the Mepro TruDot Sights:**
 - Align the rear sight with the slide and press it into place.
 - Repeat the process for the front sight, ensuring it is securely fitted.
4. **Check Alignment:** Verify that both sights are aligned correctly for optimal accuracy.
5. **Secure the Sights:** If applicable, use screws to secure the sights in place. Ensure they are tightened but do not overtighten.

Usage

- To use the Mepro TruDot sights effectively:
 - Focus on the front sight while aiming.
 - Use the bright white dots to quickly acquire your target in daylight.
 - In low light or no light conditions, rely on the green tritium glow of the sights for accurate aiming.
- Practice regularly to become familiar with the sight's performance in various lighting conditions.

Disposal Instructions

- Dispose of the Mepro TruDot sights in accordance with local regulations.
- Do not throw the sights in regular trash. Contact your local waste management facility for proper disposal methods.
- If the tritium vials are damaged, handle them with care and follow hazardous waste disposal guidelines.

Contact Information for Further Support

For any inquiries regarding the Mepro TruDot Fixed Pistol Sight, please refer to the manufacturer's website or contact their customer service. Always ensure that you have the product model and details ready for assistance.

By following these safety instructions, you can ensure the safe and effective use of your Mepro TruDot Fixed Pistol Sight. Thank you for your attention to safety and responsible firearm ownership.
