

Henry Big Boy Lever Rifle Peep Sight 357Mag 44Mag 45Colt - Henry Big Boy Lever Rifle Peep Sight Brass

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

In the Package: one sight base w/windage screw, one aperture spring w/ elevation screw, two mounting screws, one Allen wrench.

CLOVERLEAF RECEIVER PEEP SIGHTS KEY FEATURES:

- Sleek, low profile, snag-free winged base secures the aperture spring against damage and zero loss while presenting an elegant, dare we say sexy, profile.
- Low aperture sight height elevations (from .26" in the center of the sight up to .36")
- Clearly marked, scope-like windage and elevation marks make for quick and precise adjustment
- CloverLeaf aperture provides an exceptionally large, .165", bright target picture while still allowing for scope-like, precise shot placement with bright fiber optics on either side
- One piece aperture spring assembly offers robust, repeatable adjustment, and interchangeability between all bases/rails.
- Matte blasted top sighting channel greatly reduces reflective light interference.
- Type III anodized 7075 billet or lacquered brass bar stock bases look great for a lifetime.

SPECIFICATIONS:

WINDAGE: Side-to-side .09" (using set screw)

SIGHT HEIGHT (from receiver base to center of peep): .26" - .36" works with factory front sights (using set screw)

CLOVERLEAF SPRING: .165" ghost opening and 2.3" length tail (rides along the bottom of the base/rail)

SMALL BASES Pistol Calibers: 3.31" length x .650" width

LARGE BASES Big Bores: 3.66" length x .650" width

What Makes Our Peep Sights Different?

- Traditional receiver mounted rear peep sights are too tall, forcing you to go on a hunt for a suitable front sight when you'd rather be hunting.
- Delicate aperture stems are exposed to rough handling, come loose / unscrewed during use, and are prone to snagging.
- Elevation and windage adjustments use fiddly double set screws that often vibrate loose.

- Blued steel bases rust and lose their luster.

Attributes

- Name: Henry Big Boy Lever Rifle Peep Sight Brass
- Manufacturer: RANGER POINT
- Product no.: EU2014892
- Mfr. No.: 104
- Weapon type: Henry
- Delivery weight: 0.45kg

Henry Big Boy Lever Rifle Peep Sight Safety Instruction Guide

Introduction

Thank you for choosing the Henry Big Boy Lever Rifle Peep Sight. This guide provides essential safety information and instructions to ensure the safe and effective use of your new sight. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the product is suitable for your specific rifle model and caliber.
- Always handle your rifle and sight with care to prevent accidents and injuries.
- Store the sight in a safe place, away from children and unauthorized users.
- Regularly inspect the sight for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearm and accessory use.
- Be aware of your surroundings and ensure a safe shooting environment at all times.
- If you experience any issues with the sight, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Do not use the sight if it is damaged or malfunctioning.
- Avoid exposing the sight to extreme temperatures or harsh environmental conditions.
- Ensure that all screws and adjustments are securely tightened before use.
- Do not attempt to modify the sight or its components.
- Use the sight only for its intended purpose and within the specified parameters.
- Be cautious when making adjustments to avoid distractions while aiming.
- Always wear appropriate eye and ear protection when using firearms.

Instructions for Installation and Usage

Installation Instructions

1. Gather Required Tools:

- Allen wrench (included in the package)
- Mounting screws (included in the package)

2. Prepare the Rifle:

- Ensure that the rifle is unloaded and pointed in a safe direction.
- Remove any existing rear sight if applicable.

3. Attach the Sight Base:

- Align the sight base with the mounting holes on the receiver of the rifle.
- Insert the mounting screws through the sight base and into the receiver.
- Use the Allen wrench to tighten the screws securely, ensuring the base is stable.

4. Install the Aperture Spring:

- Attach the aperture spring to the sight base using the elevation screw provided.
- Adjust the height of the aperture to your preference, ensuring it is securely fastened.

5. Final Check:

- Inspect all connections to ensure everything is securely attached.
- Check that the sight is aligned properly for optimal aiming.

Usage Instructions

1. Adjusting Windage and Elevation:

- Use the clearly marked windage and elevation screws to make adjustments.
- Turn the windage screw to move the sight left or right.
- Turn the elevation screw to raise or lower the sight.
- Make small adjustments and test fire to confirm accuracy.

2. Using the Peep Sight:

- Align the front sight with the aperture for accurate aiming.
- Ensure the target is clearly visible through the aperture.
- Maintain a steady position while aiming and firing.

3. PostUse Care:

- After use, clean the sight with a soft cloth to remove dirt and debris.
- Store the rifle and sight in a safe and dry location.

Disposal Instructions

- Follow local regulations for the disposal of firearm accessories.
- Do not dispose of the sight in regular household waste.
- Consider recycling options for metal components if applicable.

Contact Information for Further Support

For any questions or concerns regarding the Henry Big Boy Lever Rifle Peep Sight, please refer to the manufacturer's contact details provided in the product packaging or visit the official website.

By following these guidelines, you can ensure a safe and enjoyable experience with your Henry Big Boy Lever Rifle Peep Sight. Thank you for your attention to safety.
