

Non-Threaded- Flush Cup

[Shooting Accessories](#) > [Duty Gear](#)

Made from all-steel construction, this swivel base delivers exceptional strength and security for adding one or more swivel positions to synthetic or wood stock firearms. It's designed for serious use — durable under load, resistant to wear, and built to keep your sling anchored exactly where you want it.

Choose your base style

Limited Rotation — Stainless Steel — Threaded: Prevents unwanted twisting of tactical slings while offering a low-profile, locked position.

Non-Threaded — Full Rotation: Provides a cleaner finished appearance and allows full 360° swivel movement.

NonThreaded Flush Cup Safety Instruction Guide

Introduction

Thank you for choosing the NonThreaded Flush Cup. This product is designed for secure attachment of slings to synthetic or wood stock firearms. It is made from highquality allsteel construction, ensuring durability and strength. This safety instruction guide provides important information to ensure safe and effective use of the product.

General Safety Guidelines

- Always ensure that the NonThreaded Flush Cup is installed correctly before use.
- Regularly inspect the product for signs of wear or damage.
- Do not exceed the recommended load limits for the product.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Installation Safety:** Ensure the firearm is unloaded before installing the NonThreaded Flush Cup.
- **Load Capacity:** Do not use the product with slings or equipment that exceed the recommended weight limits.
- **Swivel Movement:** When using the full rotation feature, be aware of surrounding obstacles to avoid entanglement.
- **Regular Checks:** Inspect the flush cup regularly for any signs of wear, rust, or damage that could compromise safety.
- **Proper Handling:** Always handle firearms with care and follow all firearm safety protocols.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is completely unloaded.
- Select the appropriate location on the stock for installation.
- Use the provided tools to securely attach the NonThreaded Flush Cup to the stock.
- Ensure all screws and fittings are tight and secure before use.

2. Usage:

- Attach your sling to the NonThreaded Flush Cup.
- Confirm that the sling is securely fastened and that there is no excessive movement.
- When using the full rotation feature, ensure that the area around you is clear of obstacles.
- Regularly check the attachment point while in use to ensure it remains secure.

Disposal Instructions

- Dispose of the NonThreaded Flush Cup in accordance with local regulations.
- If the product is damaged or no longer needed, consider recycling the metal components where possible.
- Do not dispose of the product in general waste if it can be recycled.

Contact Information for Further Support

For any questions or concerns regarding the NonThreaded Flush Cup, please refer to the manufacturer's contact information provided with your product packaging or on the manufacturer's website.

Thank you for your attention to these safety instructions. Your safety and the safety of others depend on the proper use and maintenance of the NonThreaded Flush Cup.
